STATE CONVENTION.—The Philadelphia delegation to the Union Republican State Convention, to be held at Williamsport next month, is as follows:

Senatorial—Jeremiah Nichols, John P. Wetherill, Wm. B. Mann, Horatio Gates Jones.

Representative—J. W. M. Newlin, William H. Ruddiman, Benjamin Berry, Thomas Little, T. J. Worrell, Wm. Hull, Thomas Cochran, Henry C. Thompson, Henry W. Gray, Charles N. Mann, Andrew Zane, Wesley Stephenson, George T. Deiss, James Brearly, W. A. Simpson, Charles Williams, Henry Conner.

In estimating the business condition of a person it is necessary to take into account not only his liabilities but also his assets. His liabilities may look formidable, but if he can show property, merchandise, bills receivable to a much larger amount, and in addition an extensive [illegible] business, supported by an established good will, the indebtedness of such a person [illegible] to his credit, and will suggest [illegible] the mind of any creditor. So [illegible] ernment. It owes a great deal, [illegible] as press[illegible] no difficulty upon it. [illegible] in excellent condition, all the [illegible] necessary for carrying on its function. [illegible] with even more ef[illegible] was incurred. It [illegible] also—a higher [illegible] it has internal [illegible] to make it independent [illegible] all conspiracies like that which has lately cost it so much to suppress. We see ample reason, therefore, for the unbounded trust reposed in our Government, both as to its solvency and honesty. It owes a large sum, on time, but it has property, stock, fixtures, business, good will, and is bound to go ahead and be prosperous.

FROM numerous indications, and these of various kinds, we infer that there is pervading the country a spirit of caution and economy in expenditures. This can not but be regarded as a good omen for the future, although, for the present, it may press inconveniently on those engaged in the manufacture and the sale of commodities. Were it restricted to our own locality, retrenchment might, perhaps, be ascribed to a necessity growing out of the protracted strike of the winter. But it seems to be observable everywhere. This, no doubt, suggested the policy of Mr. STEWART, to sell by auction the goods imported for his regular private store supply. For a time, it may excite fears, and perhaps occasion some perplexities, but on the whole, it will be productive of good to the community. The progress of luxury and extravagance is never without danger in a country like ours, since, owing to the facility of acquiring the means, and, perhaps still more, owing to the equalising tendencies of the popular feeling, the contagious and demoralizing power of luxury extends, as in no other country, to the general population. We deem retrenchment, therefore, a good sign. It is in accordance with advice that has more than once been given in these columns to people of moderate means and moderate earnings. It is for working men a good step towards acquiring the independence which every good workman is entitled to—the privilege of controlling and contracting for his own labor and skill, without consulting the will of any union, craft or society whatever.

Black Band Iron Ore Discovery.

The Tuscarawas, Ohio, *Advocate* tells the following story relative to a monster vein of black band iron ore, said to have been discovered in that county: We learned some time since that a large quantity of black band ore had been discovered on the farm of Mr. Joseph Junkins, about three miles north-east of this place. After careful examination it is found that this is the most important discovery of mineral wealth ever made in the county. The ore is supposed to cover over an area of at least ten acres. The vein is from nine to twelve feet thick; say that it will average but nine feet, it will yield 21,780 tons to the acre. We understand the Dover Furnace Company has bought the ore, and will mine and convey it away, paying Mr. Junkins eighteen cents per ton. This would be at the rate of three thousand nine hundred and twenty dollars and forty cents per acre. The ten acres, containing 21,780 tons per acre, will bring Mr. Junkins the snug sum of $29,204. It requires 3½ tons of black band ore to make one ton of pig iron. According to this calculation the ten acres would produce about 62,228 tons of iron, which at fifty dollars per ton would be worth three million one hundred and eleven thousand four hundred dollars! This county is full of ore fields equally as rich as the one named above.

The Baptist Anniversary.

The Anniversary meeting of the Baptist Home Missionary Society terminated on Friday. The Committee on Church Edifice Fund, through Dr. Haynes, of Massachusetts, reported the following resolutions, which were adopted:

WHEREAS, The rapid multiplication of young and thrifty communities throughout the United States renders the multiplication of houses of worship an urgent necessity; and,

WHEREAS, The demand of the times cannot be met by the Baptist churches except by the increase of the church edifice fund of the American Baptist Home Mission Society from $300,000 to at least $500,000; therefore,

Resolved, That this Society approve the plan proposed by the Board for the accomplishment of this object.

Resolved, That we recommend to the churches, and to all friends of the great cause, an immediate concert of action for the achievement of this work within the coming year.

A motion was made by a delegate to appoint Messrs. Jones, Mellish, Backus, Hoyt, Fish, Walsh and Haynes delegates to the Southern Convention to be held in Baltimore in May next. The motion was met with a great deal of opposition, in which considerable feeling against the Southern Baptists was developed. The motion finally prevailed. Five delegates were appointed to represent the Society in the Colored Baptist Convention at Nashville. A collection of $250 was taken up for the Little Rock Baptist Church. The Doxology was then sung, benediction pronounced, and the President declared the anniversary session of the Society terminated.

TELEGRAPHIC SUMMARY.

The imports at New York last week were—Dry goods, $925,795; general merchandise, $3,365,761.

Advices from Peru state that the present administration cannot hold out long. Great dissatisfaction prevails throughout the republic, and revolutionary outbreaks are occurring everywhere. Gen. Castillo will be a candidate for the Presidency. The accounts from Chile are little more encouraging than those from Peru. The Government is stronger, and may be able to quell any attempt at revolution. The feeling between the two countries is anything but friendly, and a rupture was only prevented by the Spanish difficulty and internal disturbances. It was generally believed that the mediation of the United States would be accepted. A rumor was current at Callao that the parish priests were instigating the people to burn the English church, and a guard was put over it.

The American residents of Sidney, Australia, recently held a meeting, and resolved to notify the Government that the present Consul does not possess their confidence.

The southern districts of Australia have been visited by fearful floods, causing great destruction of property and some loss of life. The yield of the gold fields continues satisfactory.

The receipts of internal revenue for the week were $2,454,669. The disbursements for the week were $1,852,253, of which $1,370,303 were for the Navy, and $480,747 for the Interior Department.

A prize fight between Patsey Shepherd and Con Reardon, for $200, took place early Saturday morning, about five miles from St. Louis, on the Illinois side of the river. The fight lasted one hour and four minutes, and was won by Shepherd. Only three rounds were fought, the first one being 48 minutes long—the longest on record. Reardon was badly punished.

Surratt's Trial.

There does not seem to be any doubt but that the trial of John H. Surratt, on the indictment charging him with the murder of Abraham Lincoln, will commence on Monday. The District Attorney is ready and most of the prominent witnesses are here. From a knowledge of the evidence to be presented, the prosecution is confident of his conviction. One of the principal witnesses, Lewis Weichman, from a full understanding of the testimony, to-day expressed that opinion. The trial will probably last a month, and the first week will doubtless be occupied in obtaining a jury.

The Impeachment Matter.

The Judiciary Committee to-day had a long and important session. Chief Justice Chase and Judge Underwood were examined at length on the course of the President and under-officials relative to the trial of Jeff. Davis. Colonel Moore, assistant private secretary of the President, and Colonel Long, on duty at the Executive Mansion, testified relative to the manner of obtaining pardons, and the way in which official information was furnished to the newspaper press. W. W. Warden, a correspondent, was examined with reference to a publication in the New York *Times* of last July, of a garbled copy of General Sheridan's dispatches to the President relative to the New Orleans riots. His evidence was the same as that given before the special House committee which investigated the cause of the riots.

The Louisiana Registry.

Advices from New Orleans state that the colored men in Louisiana have a majority of fifteen thousand in the State so far as the registry is completed.

The Virginia Campaign.

The Republicans contemplate opening the campaign in Virginia next week. Representative Boutwell will speak in Loudon county.

Revenue Receipts.

The internal revenue receipts are up nearly to within one month of the fiscal year, and do not show so great a falling off as was anticipated. The total amount received up to to-day is two hundred and fifty millions.

Special Dispatch to the Pittsburgh Commercial.

WASHINGTON, May 26.

General Thomas.

General George H. Thomas arrived here today, in obedience to a telegraphic summons from the President, with whom he is having an interview this evening. The rumor that he is summoned here to supersede General Sheridan in command of Louisiana and Texas is freely circulated, but is denied in authoritative quarters. There is no doubt, however, but that two parties, representing extreme but opposite interests are here from Louisiana, urging the President to displace General Sheridan.

The Surratt Trial.

The *Chronicle* to-day intimates that the indictment found against Surratt for murder is not strong enough, and that it will be abandoned by the prosecution, the trial postponed, and an indictment for treason found by the Grand Jury.

The Booth Diary Again.

A new phase has been developed about the Booth diary. Ex-Detective Baker declares that the diary is not in the condition it was when he first saw it. He says that it contained an account of Booth's killing his horse in a tangled wood to escape detection, and then sleeping between the animal's legs to get the warmth, while it remained in the dead body, during all of one night. He has published this declaration in his book, and the Judiciary Committee are to question him again on this point, for nothing of the kind is in the diary as just published.

The Impeachment Case.

In addition to the list of witnesses telegraphed last night as having been examined by the Impeachment Committee, it is learned that John T. Ford, proprietor of the theater where President Lincoln was assassinated, testified yesterday relative to conversations which he had with parties charged with complicity in the plot.

Thad. Stevens and a July Session.

The *Chronicle* to-day says that a gentleman who saw Thaddeus Stevens last week, reports that he thinks there should not be a July session of Congress, unless articles of impeachment should be brought forward.

NEW YORK, May 25.—The steamer Hermann, from Southampton on the 14th inst., has arrived.

Mr. Walpole, who resigned the British Home Office, remains a member of the Cabinet, without office.

Marquis Moustier, in announcing the signature of the Luxemburg treaty, said "the treaty fully accords with the views of the French government. It does away with a state of things established against us in evil time and maintained for fifty-three years. It gives to our German frontier the guarantee of another neutralized State. It secures to the reigning Grand Duke complete independence, and not only removes causes of an imminent conflict, but gives fresh pledges for the strengthening of good relations and the maintenance of the peace of Europe. The government has to congratulate itself upon having obtained these results, and to make known how just and friendly are the sentiments of other powers towards us. The Government think it useful to especially point out, that for the first time, the meeting of a conference, instead of following a war, and confining itself to sanctioning its results, had succeeded in anticipating and preserving the benefits of peace. This is a precious indication of the new tendencies which prevail in the world, and over which the friends of progress and civilization should rejoice."

There had been terrific thunder and hail storms in London.

A Fenian riot occurred at Killarney on the 13th. The police were mobbed and several hurt by stones. Police reinforcements and the military subdued the demonstration.

The French crops are highly satisfactory, and the Paris and provincial corn markets are declining.

The Cretans have formed a provisional government and appointed Mavrocordato, the eminent Greek statesman, Governor General.

The Greek blockade runner Arcadia had landed seven hundred volunteers at Crete, under the command of General Hahn, a Swiss officer.

Details of the engagement on the 19th of April state that the Cretans three times repulsed the enemy 50,000 strong, and at last routed them with heavy loss. All the enemy's provisions and war munitions, with 150 horses, fell into the hands of the insurgents.

FROM SOUTH AMERICA.

Trouble in Panama—Prado to Declare Himself Dictator in Peru—Treaty between Bolivia and Brazil—Big Guns Received by Peru, &c., &c.

NEW YORK, May 26.—Advices from Panama state it is highly probable Mosquera's rumored movement against Panama has been abandoned. Three American and two British vessels arrived simultaneously in the harbor of Panama on the 4th, under the impression that the national troops were about attacking the town, and the transit route would be interfered with. No attack occurred, but it is said semi-officially that in case of interruption on the transit route the United States forces would have immediately seized and occupied it.

Fourteen sailors belonging to the R. R. Cuyler had accepted the protection of the United States, and were given up on demand to the United States steamer Osceola.

Lima correspondence states that it is highly probable Prado will soon declare himself dictator. Congress compelled him to dismiss his Minister, and nobody was found willing to accept the positions. Revolution is ripe all over the Republic.

The French Admiral had sold a small Mexican steamer at Callao without permission.

Bolivia had signed the treaty of commerce and navigation with Brazil.

The American ship Camilla, from Boston, had arrived at Callao with big guns for the Peruvian Government, including ten fifteen-inchers.

Valparaiso letters say the impression prevailed that the United States was more friendly to Spain than to Chile and Peru, and it was probable the proposed mediation of this country would not be accepted. Allied squadron was in port, and the good feeling between the governments was restored.

FROM NASHVILLE.

The Campaign Warming Up—Speeches of Stokes and Etheridge.

NASHVILLE, May 25.—Col. W. B. Stokes and Hon. Emerson Etheridge spoke here to an immense crowd of whites and blacks. Their debate was deeply interesting, and at times exciting. Etheridge devoted most of his time to an exposition of radicalism and the records of Brownlow and Stokes, and gave satisfaction to the conservative part of the audience. Stokes vindicated his course, and in turn assailed the public history of his opponent and the aims of conservatism. The radicals express gratefulness for his labors in their behalf. Both speakers were warmly applauded. The effect of the debate was to arouse the two parties, and henceforward the campaign will be active and zealous. The colored voters present listened patiently and appeared to be much interested. It was evident, however, that they generally were with Stokes.

XENIA, OHIO, May 25, 1867.

The United Presbyterian General Assembly continues in session.

Reports from the several Presbyteries were presented to-day, and referred to the appropriate committees.

Resolutions were read expressive of sympathy with the great work of the Freedmen's Union commission, in providing common schools for freedmen.

A paper was presented, signed by Dr. Wilson and others, appealing from the decision of the Second Synod of the West, in the case of Mr. McCune. This, with other papers in the same case, was referred to the Judicial Committee, to report as soon as ready. The case will elicit much interest.

The Assembly adjourned at noon to allow of services in both United Presbyterian Churches preparatory to communion to-morrow.

EXTENSIVE WAR PREPARATIONS.

IMPENDING MOVEMENT ON CANADA

Preparations on the Borders.

[From the New York Herald.]

It may have been supposed by many, owing to the lull in Fenian matters during the present year, that the attack on Canada was finally and forever postponed; but any one acquainted with the interior workings of the organization would be disabused of the idea by observing the magnitude of its secret operations. In consideration of the fact that the United States Government is said to have formed a determination not to intercede or interfere in any movements of the Fenians against Canada in future, it was not deemed inappropriate to obtain privately the details of their preparations during the past eighteen months for a public announcement.

By a visit to the iron foundry of McDermott & Co., in Eighteenth street, near avenue B, it was observed and learned that since the first of January, 1866, the most active preparations have been in progress in the way of manufacturing ordnance and arms for the Fenians under the leadership of President Roberts. During this time they have been manufacturing at this foundry large numbers of twelve and twenty-four pounders, of bronze metal, of ten hundred or twelve hundred pounds weight each, and shells of various sizes, at the rate of two hundred per day. Besides this, three or four tons of grape and canister shot have been manufactured daily, or, since the receipt of the contract, over two thousand tons. Three or four United States service field cannon have also been made. The howitzers have been principally made at other foundries. About twenty or thirty twelve pounders, or Napoleon guns, have also been made during the past year. These are manufactured of bronze metal or brass, and weigh about seven hundred pounds each. They are to be drawn by four horses.

The foundry employs thirty-five men, who are constantly employed in the manufacture of ordnance for the Fenian service. These have been actively employed for the past eighteen months. Three or four mounted howitzers have also been made during this year by McDermott & Co. These weigh nine hundred pounds each, and can propel a twelve pound shot or shell a distance adequate to effectual work in actual service. These arms and munitions of war are stationed in twelve buildings in this city, ostensibly rented for mercantile purposes, but which are soon to yield forth their arsenal contents of deadly weapons to deal another and severe blow on the Canadian government. A similar arrangement obtains in every prominent city in the country.

The Fenians in this city alone have already stored away enough artillery and ammunition to equip one hundred thousand men and supply them with the material of war for six months. These are made on greatly improved methods, which make them immeasurably superior to those used in the great rebellion. All the inventions and improvements in Europe and elsewhere, whose excellence has been established by actual use, are being availed of to the amplest extent of the Fenian exchequer. Many of these guns far supercede anything heretofore invented. They have cannon which will impel ten shots per minute, and only require three men to manipulate them. Formerly it required at least eight men to serve a single gun. These arms have cost the Fenian organization five hundred thousand dollars, and the ammunition for six months over one million dollars. This firm have also manufactured torpedoes of the most destructive character at the rate of six per day, and have therefore stored in their private arsenals about twenty-five hundred; varying in weight from two to six hundred pounds each. They cost about $100 each, and are to be used for harbor purposes, in order to destroy the commerce of an enemy. A vessel coming in contact with one of these will be blown up or so impaired as to be made unserviceable. They are filled with powder and nitroglycerine, or Greek fire—a very recent invention, remarkable for its destructive qualities. Millions of fuses are also being manufactured by this firm. These are, of course, used for igniting and bursting the shells. They are made to explode in from two to sixty seconds. A large number of spherical case shells have also been made. These are filled with gun or round musket balls. They are the same as the ordinary shell, only a little heavier, and are filled with balls. They contain but a small charge internally, in order to break the shell. The force of the explosion breaks the shell and scatters the balls far and wide with a deadly effect a distance of over 1,000 yards.

In the secret arsenals of this city alone there are 10,000 spherical case shells, 20,000 grenade shells, 37 tons of grape, and 6 or 7 tons of canister shot, as well as 100 twelve and twenty-four pound howitzers, together with the others mentioned. These latter were bought cheap from the United States at the rate of old iron, one cent and a half per pound, as well as a large amount of cannon and ammunition not mentioned above. Two or three tons of hand grenades are being manufactured per day by McDermott & Co. for the approaching Fenian movement. These are three-inch shells, and can be thrown by the hand among a garrison or impelled from the mouth of a gun or howitzer.

The appearance at the foundry is not such as to suggest any warlike demonstrations of this magnitude, all the material of war, as soon as completed, being quietly and secretly hauled away to the private Fenian arsenals in the city.

It will be remembered that when the Sweeney party got the start of the O'Mahony party by actual operations in the field the latter organization deemed it best to divert the ranks of the Roberts or Sweeney party by moving on Campo Bello, inasmuch as aggressive movements on Canada seemed to have grown suddenly popular above any secret invasion of the Green Isle itself. Killian was sent up by O'Mahony with a strong force to capture Campo Bello, or at least to lead the United States into difficulty with England about the fisheries in that section of country. In this movement McDermott was adjutant general to Killian and grand practical prime mover of this attempt on the British possessions. At this time McIntyre, who is a member of the firm of McDermott & Co., was aid-de-camp to Killian. McDermott also fought bravely and gallantly in the Union army during the rebellion. It is not surprising, therefore, that with his reputation as one of the most courageous, daring and patriotic of Irishmen here extending the influence of his money and the power of his knowledge and skill in the direction of this great and final movement on Canada, which is so soon to startle the skeptics who have no faith in the Irish character. A mightier than Tamerlane will sweep down upon the British provinces in America, and if not successful will at least give the British Lion a bitter foretaste of what feeling prevails against his majesty among the exiled Irishmen of America and of the wide world over.

MEXICO.

The Imperialists and Liberals Still Fighting at Queretaro—A Great Battle Expected.

NEW YORK, May 25.—News from Queretaro to the 7th inst. reports that on the 6th Miramon sallied with his entire force, and engaged the Liberals for an hour and a half, but was driven back with heavy loss, while the Liberal losses were trifling. Further than this there does not appear any marked change in the position or prospects of the belligerents. A great battle is daily expected.

WASHINGTON, May 26.—Senor Romero, Mexican Minister, has received a long communication from General Porfirio Diaz, detailing the capture of Puebla, the rout and pursuit of Marquese, and operations against the City of Mexico. He details the proposition of Portillo, O'Horron and other Imperial officials, to surrender the City of Mexico and betray and surrender Maximilian, Marquese and other Imperialists on condition that their own lives be spared and given safe conduct out of the country. Diaz says all these treacherous propositions were rejected. He also states that Gen. Bazaine, before leaving Mexico, proposed to sell him 6,000 muskets and a large quantity of war material, but that he declined to purchase from him. He is confident that during the present month the contest will be ours, and the capitol of the country in the possession of the Liberal Government.

PRESBYTERIAN GENERAL ASSEMBLY, O. S.

Reports of Committee on Union—Report on Declaration and Testimony Adopted.

After the usual religious exercises Friday morning, and the hearing of reports from the Committee on the Judiciary, Rev. Dr. Smith announced that the Committee on Reunion of the Church were ready to report, and regretted the necessity of a minority report. Dr. Breed read the majority report as follows:

MAJORITY REPORT ON REUNION.

The Committee to whom was referred the report of the other branch of the church, would respectfully recommend to the General Assembly the following resolutions:

Resolved, That this Assembly has listened with grateful and profound satisfaction to the report of the Committee on Church Reunion, and recognizes in the harmony and unanimity of the Joint Committee the finger of God as pointed toward an early and cordial reunion of the two sister churches now so long separated.

Resolved, That said committee be continued and desired to co-operate with any similar committee of the other branch in furtherance of this object, and to report thereon to the next General Assembly.

Resolved, That the committee be empowered to fill all vacancies that may occur in that body during the coming year, whether by resignation, protracted sickness, or by death.

Resolved, That the necessary expenses incurred by this committee in the discharge of the duties assigned them, be paid from the profits on the sale of books, by the Board of Publication.

Resolved, That the report of the committee be published in the appendix to the minutes and in our religious newspapers, and commended to the careful consideration of our whole church, and that the committee be directed to report to the next General Assembly any modification of the terms of union specified therein, which shall appear desirable to the joint committee, in view of any further light that may have been received during the year.

Resolved, That the Hon. Daniel Haines and Hon. Henry W. Green, L. L. D., of New Jersey; Daniel Lord, L. L. D., and Theodore Dwight, L. L. D., of New York, and Hon. William Strong and Hon. George Sharswood, L. L. D., of Pennsylvania, be appointed a committee to investigate all questions of property and all vested rights, as they may stand related to the matter of reunion, and that this committee be requested to report to the joint committee as early as January 1, 1868, and that one share of the necessary expenses incurred by this committee be also paid by our Board of Publication from the profits of book sales.

Resolved, That the joint committee be requested to consider and report to the next General Assembly any specific amendments to our Church Constitution which may be required in the reunion of two bodies so large as that of the [illegible] church.

THE MINORITY REPORT.

Rev. Dr. Smith read the minority report as follows:

The minority of the committee to whom was referred the report of the committee appointed by the last General Assembly to confer with a similar committee appointed by the other branch of the Presbyterian Church, on the subject of reunion between the two, beg leave to report:

They have heard with great pleasure and gratitude to God of the delightful spirit of harmony which pervaded the deliberations of the joint committee, and the gratifying degree of unanimity with which their conclusions were reached. The time, we trust, may come when all the branches of the Presbyterian Church in this land will hold the same standards.

The subject is one confessedly of great difficulty and delicacy. The almost uniform failure of all similar attempts at organization, the frequent exasperation and widening of the breach between the bodies attempted to be united, and the multiplication of the strifes and division among them, which have resulted from the best intentioned efforts at union when prematurely urged, warn us of the necessity of moving cautiously and pondering every step. The reasons which should always inspire such caution operate with peculiar force in the case before us. The generation which witnessed the disruption, and the men who were the chief actors in it, on both sides, are still among us. The feelings excited by it have not yet passed away.

The traditions of it are still fresh, and many, it is supposed, on both sides, still retain the convictions there avowed, and hold fast the positions there assumed. Under such circumstances, the great danger is, lest by precipitate or unguarded action, we kindle the embers of the old strife into a flame throughout our churches and presbyteries, and so prejudice and procrastinate the result desired. Just emerging from one sea of troubles, we ought surely to hesitate lest we plunge into another.

In order that the union between the two bodies when formed may be real and permanent, there must be a thorough understanding and hearty agreement between them as to the chief issues on which they are divided. Nothing should be left ambiguous or indeterminate, to become the occasion of future misunderstanding and strife. It has seemed to the minority of your committee that the basis of union as found in the report before us, is not sufficiently full and explicit, and they are unwilling that it should go down to the churches, with the implied sanction of this Assembly, to which all look for guidance and instruction as over them in the Lord. The basis of union is reported to you expressly and formally for your sanction upon it, and it is the prerogative, as it seems to us the imperative duty of this body, the highest court of the Church, to express the judgment clearly and unequivocally for the guidance of the committee and of the church at large, in their future deliberations.

With these views the minority of your committee, with great reluctance, but under the stress of convictions they dare not resist, have felt constrained to differ with the majority upon a single point—that of instructing the committee appointed by the last Assembly, and to be continued by the action of this. They heartily concur with the majority in their entire report, and adopt it as their own, and propose to add to it the following instructions to the Committee of fifteen:

1. That they endeavor, if practicable, to secure a more clear and definite statement of the Doctrinal Basis. It is well known that the two parties differed in the interpretation of our doctrinal standards, upon points which both considered vital, while both professed to receive them as containing the "system of doctrine taught in the Holy Scriptures." There is nothing in the basis as proposed in the 1st article, to show in what sense, as in the sense of which party, or in what higher sense, which is supposed to harmonize both our standards, are to be interpreted. What is their true historical sense, is the very question to be settled? Both parties disclaim all the extremes from which they are formally distinguished; if then either the two bodies in the same sense, either can define that sense for the other, and there can be no possible difficulty in the way of agreement, upon a clear and definite statement as to the main points at issue, particularly the great decisive doctrine of imputation and atonement, as to its nature and extent.

2. The committee are further instructed to secure, if possible, such an amendment or modification of the second article as will secure the speedy and thorough Presbyterial organization of all the Churches, and the admission of none acting ordained ministers and elders to a seat in any Church court.

3. The committee are still further instructed to obtain, if possible, a distinct and formal recognition of the rights and obligation of every presbytery to be satisfied as to the soundness of every minister it receives. With these instructions the minority concur in the recommendation that the committee of fifteen be continued as provided for in the report of the majority.

JOSEPH T. SMITH,
E. ANSON MORE.

After some discussion as to the time for disposing of these reports, the Assembly adopted a motion to docket the reports, to be taken up at the convenience of the Assembly.

The greater portion of the morning, and the entire afternoon and evening sessions were consumed in discussing the report of the Committee on Declaration and Testimony, relative to the contested seats from the Synods of Kentucky and Missouri. The report of the Committee was finally adopted by a vote of two hundred and six for and four against it.

The Assembly then adjourned to meet Saturday morning in Covington, Kentucky, to elect officers for Danville Theological Seminary.

The following gentlemen have been named for the positions of Registers in Bankruptcy in the Eastern District, by Chief Justice Chase, subject to the appointment of Judge Cadwalader: Second District, William McMichael; Third, B. Franklin Fisher; Fourth, J. Hubley Ashton; Fifth, Edwin T. Chase; Sixth, George N. Corson, of Norristown; Seventh, Samuel E. Thomas; Eighth, Hardson Maltzberger, Berks; Ninth, Amos Slaymaker, Lancaster; Tenth, J. Hobart; Eleventh, William L. Dastor.

One Kaufman, a saddler, employed in Curwensville, Clearfield county, made love to a daughter of a respectable citizen of that place, and they were about to be married. The father ascertaining that Kaufman had a wife in Blair county, had him arrested on a charge of false pretenses, the lover having obtained some money from the daughter for the purpose of purchasing something for her, but which never came to hand.

RECONSTRUCTION.

THE DISFRANCHISING CLAUSE.

Opinion of the Attorney General.

WASHINGTON, May 26, 1867.

Attorney General Stanbery's opinion on the clauses of the Reconstruction act on the subject of voting and holding office, is made public. The opinion as to the powers of commanding generals will be given hereafter. As to the original act he says:

The qualifications of a voter are by the fifth section limited to the election of delegates to a convention, and to the question whether such convention shall or shall not be held; and that no qualification as to the voter are required in all elections to any office under existing provisional governments during their continuance, and as to eligibility at such elections, certain classes are excluded.

As to the supplemental act, he says:

The question of qualification or disqualification is fixed by registration. No power is given to any other board or any other authority after registration is completed to change the registry. The persons whose names are admitted to registry are entitled to vote, subject to the limitation hereinafter mentioned, and no other. This registration must be completed before the first of September, 1867. The functions of the board of registration cannot be extended beyond that fixed time, but after that time the duties remaining to be performed by the officers composing this board are limited to holding and superintending elections and making proper returns to the Commanding General. This brings us to the direct question, who is entitled to registration? First, as to citizenship and residence, no persons are entitled to vote who shall not be resident in the State for one year previous to the day of election. It is not necessary that this previous residence for a year should exist at the time the person applies for registration. A person in all other respects entitled to vote is entitled to registration, though he has not at the time been a resident of the State for a full year; for we find in the supplemental act that the oath as to residence does not require the applicant to swear that he has then been a resident for a year, but only requires him to state the number of months of his residence, contemplating a period less than, as well as the full term of, twelve months; therefore, as to such person so registered, if it happen at any election subsequently to be held, that the time of his residence, counting from the day of election, does not cover an entire year, he cannot vote at such election, for this supplemental act does not, as to residence, change the provisions of the original act, as it is explicitly provided by it as to registration, that it shall include only those qualified to vote by the original act. To carry out the purpose of the law in this respect as to residence, boards of registration should note opposite the name of the person whose residence has not extended to the full term, the exact time of his residence.

As to the citizenship qualification, it is stated in the original act it is citizenship of the State; but by the first clause of the first section in the supplementary act, the registration is to be made of male citizens of the United States, and as to oath the applicant is only required to swear he is a citizen of the State. I am of opinion the phrase "citizen of the State," as used in the oath, is intended to include only such persons as are citizens of the United States, and that an alien, who has not been made a citizen of the United States, cannot safely take the oath; but as boards of registration have only authority to administer the prescribed oath, they could require only further oath as to citizenship, and if an alien not made a citizen of the United States takes the oath, he takes it at his peril, and is subject to prosecution for perjury.

Second, as to age, no one is entitled to registration who is not at least twenty-one years of age when he applies for registration. In this respect the qualification as to age differs from the qualification as to residence, and the fact that majority must exist at the date of registration.

Third, as to disfranchisement, the [illegible] section of the original act denies the right to vote to such as may be disfranchised for participation in the rebellion or felony at common law. The words here used, "in the rebellion" must be taken to mean the recent rebellion; but the supplemental act enlarges the disqualification, and requires the applicant to swear that he has not been disfranchised for participation in any rebellion or civil war against the United States or felony committed against the laws of any State or the United States. The mere fact of such participation or commission does not of itself work a disfranchisement; it must be ascertained by judgment of a court or legislative act. I am not aware of any law of the United States which works disfranchisement as to right of suffrage by force of an act itself, nor does such a consequence follow from conviction for treason or any other acts of participation in rebellion. The provision in the Constitution of the United States does not declare what shall be the punishment on conviction of treason; that is left for Congress, with the limitation that corruption of blood shall not follow as a consequence of any forfeiture except during the life of the party. Congress, in the exercise of its power, has limited such punishment on conviction to the penalty of death or imprisonment, and by manumission of slaves owned by the party, and to disqualification from holding any office under the United States. I am not advised of any statute now in force in either of these ten States, except, perhaps, Virginia, which declares disfranchisement as to right of suffrage by force of the act itself. The original act contemplates disfranchisement arising from participation in rebellion, whereas disfranchisement under the fourth and fifth clauses of the supplemental bill does not arise from such participation, but other elements must concur; that is, the holding of certain offices or taking an official oath by certain officers and afterwards participating in rebellion against the United States. As to some officers, no doubt members of a State legislature and Congress, are clearly enough designated. A State Convention for framing amendments to the State constitution, though clothed with legislative power, cannot properly be called a State Legislature, and in the acts now under consideration, a convention and a Legislature are expressly distinguished from each other, for they require a constitution to be framed by the convention, and require the Legislature of the same State to adopt the Constitutional Amendment. When, then, in the same acts they again use the phrase "Legislature of the State," they must be understood to use it in the same sense, and distinguished from a Constitutional Convention; but as to those Legislatures which passed what are called ordinances of secession, I am of opinion their members are properly comprehended within this disqualifying clause, for I can imagine no legislative position in which the duty of allegiance was more distinctly violated.

A more difficult inquiry is, who to consider an officer of the United States, or an executive or judicial officer of any State. Various classes of officers are intended, State officers, and Federal officers and executive or judicial officers. No legislative officer is mentioned, except a member of the State legislature or a member of Congress. The descriptions used as to other officers, are, as to State officers, they must be judicial or executive, and as to a federal officer, the terms executive or judicial, are not expressed. He is described simply as an officer of the United States. Officers of the militia of a State are not included in these terms of description, else the act would have included civil or military officers of the States, for in the third section of the Constitutional amendment, known as article 14, Congress expresses that purpose very clearly. That section is expressly referred to more than once in these acts, and is made in fact part of these acts. Its language is followed word for word in these qualifying clauses as far as possible, except in the particular in which one is made to apply to eligibility and the other rights to vote. When, therefore, we find Congress declaring what persons shall be disfranchised from holding any office, expressly including military as well as civil officers, as in the third section referred to, and in providing what persons shall be disfranchised from voting who held any office, it omits to mention military officers; we cannot escape the conclusion that military officers were not within this contemplation. It must be borne in mind that we are here considering a class of military officers who were such prior to the rebellion, when the office was loyal, and known as officers of militia; not that class who became officers during the rebellion. This last class was under the clause of disqualification which applies to participation in rebellion. As to the civil officers disfranchised the clause fairly includes all State officers, Governor, Lieutenant Governor, State Auditor, Treasurer, Secretary of State, officials proper who exercised executive functions at the seat of government. I am not prepared to say that only these proper State officials come within the terms of description, nor am I prepared as to judicial officials of a State to limit the description to judges of courts whose jurisdiction extend throughout the entire State. I must content myself by saying they are clearly within the meaning of the law. Municipal officers do not come within the provisions of the act. Subordinate officers of a legislature, who are not members, do not come within its provisions. As to county, township and precinct officers, he reserves his opinion whether all of them or not all, while classes of them come within disqualification. All other executive or judicial officers except county officers come within the meaning of these laws.

Persons who exercise special public duties rather in the nature of occasional employment, than general and continuing official duty, do not come within the law, as boards of commissioners of public works, directors of State asylums, visitors of State universities, directors of State penitentiaries, State directors of banks or other corporations, special commissioners, &c., but all persons who as executive or judicial officers of any State, have taken the oath to support the Constitution of the United States, are clearly disfranchised. All persons, who, during the rebellion, acted in an official capacity, where the duties of the office necessarily had relation to the support of rebellion, such as members of the rebel Congress and rebel Conventions, diplomatic agents of the rebel Confederacy, or such officials whose duties more especially appertained to the support of the rebel cause, come within the terms of exclusion.

Officers in the rebel States, who during the rebellion discharged official duties not incident to the war, but in the preservation of order and the administration of the law, are not to be considered as thereby engaging in rebellion. The interests of humanity require the performance of such duties, and they can never be considered as criminal.

Mr. Stanbery is satisfied the language used in the act as to participation in the rebellion carries the idea of voluntary participation, and that Congress used in this sense the word "engaged." Some direct overt act, done with intent to further the rebellion, is necessary to bring the party within the purview and meaning of the law. Merely disloyal sentiment, or expressions are not sufficient. The person applying for registration is not required to clear himself from the taint of disloyalty. The meaning of Congress becomes yet more evident when we look at the last clause of the prescribed oath. He is required to swear he will faithfully support the Constitution and obey the laws of the United States, and will to the best of his ability encourage others to do so. This provision looks to the future and not to the past, and the purpose is manifest to omit in the right to vote the disqualification arising from past disloyalty, put in the test oath as a disqualification from holding office, mere acts of common humanity and charity cannot be considered as involving the party in participation in the rebellion. So, too, with forced contributions to the rebel authorities, or compulsory payment of taxes in aid of rebel arms; but whenever an act is done voluntarily in aid of the rebel cause, it would involve the person and work disqualification under the law. Voluntary contributions in furtherance of the rebellion or subscriptions, contributions of food or clothing or necessary supplies, except of a strictly sanitary character, are to be classed with acts which disqualify.

The duties and powers of the Board of Registration are adverted to. The administration of any other oath than the one provided in the act would be extra judicial and without authority, and false swearing could not be assigned as perjury upon such unauthorized oath. The oath in the act is the sole and only test of the qualifications of the applicant; if he takes it, his name must go on the register. The Board cannot enter upon an inquiry whether he has sworn truly or falsely. At the election the duty of the Board is simply to receive the votes of registered persons, and reject all others.

CITY MATTERS.

PITTSBURGH, FORT WAYNE AND CHICAGO RAILWAY.

Adjourned Meeting of Shareholders—Authority Voted the Directors to Increase the Capital Stock $1,500,000.

In pursuance of the resolution adopted at the last annual meeting, the stockholders of the Pittsburgh, Fort Wayne and Chicago Railway Company assembled on Saturday, at 12 o'clock M., for the purpose of considering such detailed estimates as might be submitted by the Board of Directors for additional equipment and permanent improvement of the road, and for determining to what extent and in what manner they will provide the means therefor, by an increase of capital stock. Mr. James S. Craft, Chairman of the previous meeting, presided.

The President presented the resolutions passed at the last meeting of the Board in New York, which have heretofore been published, and submitted the following estimate of the proposed improvements:

Equipment and shop machinery	$455,000
Buildings	298,000
Water stations	46,500
Bridges and culverts	251,500
Side track, &c.	115,000
Real estate	34,000
Total	$1,200,000

The President stated that the subject had been so fully discussed in the reports of the Board of Directors and those of the officers, that it was not deemed necessary to elaborate it further.

The following resolution was then offered by Mr. John Larwill, of Wooster, Ohio:

Resolved, That pursuant to, and in accordance with the foregoing resolutions of the 7th of April, 1867, and subject to all their conditions, we, in compliance with and for the purposes mentioned in the foregoing resolutions of the Directors of 22d April, 1867, do hereby authorize an increase of capital stock to the extent of fifteen thousand (15,000) shares, as proposed in the aforesaid resolutions of 22d April, 1867, and provided that no fractional share shall be issued.

After a full and harmonious discussion of the whole subject by different shareholders, the following resolution was offered by Mr. Dill and unanimously adopted:

Resolved, That there be appointed by the Chairman two tellers, who, with the Chairman, shall receive and count the votes on the foregoing resolution, and report the result to the Secretary, the said tellers declaring the resolution as either adopted or rejected, and that the voting close at 3 o'clock P. M., to-day.

Resolved, That the meeting do now adjourn and proceed to vote on the resolutions by ballot, those in favor voting aye, and those opposed no.

At the closing of the poll, the votes being counted resulted as follows:

In favor of the resolution	44,577
Opposed to the resolution	None.

The Board of Directors have, therefore, granted to them the power of increasing the capital stock $1,500,000, twenty per cent. of which representing the amount of bonds redeemed by the sinking fund, is to be credited to the shareholders, and the remainder, eighty per cent. is to be paid in cash within the time allowed for subscribing, which is from the 20th to 30th June. Certificates for the new stock will be issued after July 1st, and will carry the dividend for the quarter ending September 30th. Those who appear as stockholders on the 10th of June will possess the privilege of subscribing.

The Monumental Fair To-Morrow.

Our readers will bear in mind that the Grand Fair under the auspices of the Ladies' Monumental Association, will commence to-morrow evening, at City Hall. The Hall has been decorated in a tasteful and attractive manner, and, aside from the useful, beautiful and interesting articles on exhibition, is well worth seeing. The booths are all completed, and are being filled with works of all descriptions. The opening ceremonies to-morrow will be quite a feature. General James K. Moorhead will deliver the opening address.

Donations of pictures, and particularly of flowers, are requested. The loan of flags, relics and curiosities is also urgently solicited. Send in the articles to-day or to-morrow to City Hall. They will be taken care of and returned at the close of the Fair.

The Association desire to return thanks to Mr. Scaife, for the donation of water pipe for the fountain; to Mrs. Ewing for plumbing; to Mrs. Alex. McClintock, of Lawrenceville, for a handsome donation of fancy articles, and to Master George H. Johnson, for the loan of relics, a beautiful painting and frame.

ACKNOWLEDGMENTS.

The Subsistence Committee acknowledge the following contributions of cash and provisions:

Exchange Bank	$200 00
F. R. Brunot	50 00
R. C. Loomis	50 00
Employees at Lloyd & Black's Iron Works	41 50
George Albree	20 00
Mrs. George Albree	5 00
Mrs. J. Patterson	5 00
Lizzie P. Albree	10 00
Mrs. James B. Low	5 00
Mrs. Thos. Kammerer	5 00
Cash	10 00
T. H. Lane	20 00

Batley, Perry & Co., 1 car tomatoes, 1 car peaches; Kennedy & Lothrop, 2 bbls potatoes. Also numerous contributions of eatables from private families.

Cash contributions can be sent to Weyman & Bro., or Geo. Albree, Son & Co. Contributions should be sent to City Hall, rear door, marked "for the Subsistence Committee."

Our merchants and business-men, who find it inconvenient to go home to dinner, and those in the habit of eating their lunch at their offices, will be gratified at the opportunity of getting a good warm dinner daily during the Fair at City Hall. The Subsistence Committee will do their best to please all, and as they never failed in any of their previous patriotic undertakings, we feel sure they will succeed in their present effort in a noble cause.

A Prize Fight—Twenty-Two Rounds Fought.

Two middle aged men, who were slightly intoxicated, while passing along the Allegheny wharf on Friday evening about five o'clock, got into a quarrel, and each declaring that they could whip the other, determined to settle the matter by the rules of the prize ring. They engaged a man at work near by to act as "bottle-holder" and referee. The ground selected for the fight was immediately under the railroad bridge. The contestants then stripped themselves of their outer garments, and the "battle" commenced. At the close of the fifth round one of the contestants thought he could fight better with his shirt off, and accordingly stripped himself. Five more rounds were gone through with, when the other concluded he would also take off his shirt. In doing so he was kindly assisted by his opponent, who did not want any hard feelings. The "battle" was then renewed in real earnest, one or the other receiving a knock-down until the end of the twenty-second round, when the larger of the two closed the contest by acknowledging himself beaten, and the pugilists departed for their respective homes. Both parties were pretty badly beaten, and the fight is said to have been well contested.

Little Girl Drowned—Inquest.

Coroner Clawson held an inquest on Saturday on the remains of a little girl named Lizzie Cassiker, who was drowned in Lower St. Clair Township, on Friday evening. The child, who was eight years of age, resided with her mother Mrs. Wirt, a female physician, near Knox's Nursery. It appears that about six o'clock in the evening, the little girl went with a tin bucket to get water from a pond in Mr. Knox's farm, a short distance from her mother's house. She was accompanied by a little girl named Hattie Loeffel, and the two walked around the pond to get clear water. At length Lizzie stooped over the bank to dip the water, and she lost her balance and fell in. The other little girl immediately gave the alarm, but though several men were near, no one made any attempt to rescue the child until a young man named J. M. Bunder came up about fifteen minutes after she had fallen in, and jumped into the pond after her. He made several ineffectual attempts to reach the body, and finally succeeded in bringing her ashore. Life, however, was found to be extinct, and although persistent efforts were made to restore her, all were in vain. The Coroner's jury rendered a verdict of accidental drowning.

LECTURE BY GEN. S. F. CAREY, OF OHIO, ON TEMPERANCE.—To-night and to-morrow night we hope to see Lafayette Hall filled to repletion to hear the distinguished orator, General Carey, of Cincinnati, on the subject of Temperance. He is one of the most interesting speakers of the present day, and in discussing the subject of the great Temperance Reform movement, in our midst he cannot fail in being eloquent. We understand that General Carey lectures under the auspices of Pittsburgh Division No. 12, and that other public demonstrations are to follow from time to time, as helps of the right kind in the Temperance work. [illegible] as a great Temperance lecturer, is well known to our citizens. We will just add that General Carey is considered to be, in every sense, an equally interesting speaker, and many regard him as being superior. Go early to-night and procure a good seat.

THE CANONSBURG BANK ROBBERS.—The Grand Jury of Washington county returned a true bill on Friday against Robert Matthews, for robbing the Farmers' Deposit Bank, at Canonsburg, a few weeks since. On motion of Eb. Williams, Jr., Esq., of this city, on the part of the Commonwealth, the Court continued the case for trial until the August term of court. Alderman Strain, and others of this city, who were summoned as witnesses in the case, returned home on Saturday. Sheriff Smith, of Washington, brought Matthews to the jail in this city, on Saturday evening, for safe keeping.

BROUGHT TO JAIL.—Sheriff Smith, of Washington county, brought to this city and lodged in jail, on Saturday evening, John M. Bird and Thomas Whittaker, indicted for the murder of David Sproul, near Noblestown, in March last, and held for trial at the August term of the Washington county Court of Oyer and Terminer. The jail at Washington [illegible] being about to be torn down, preparatory to the erection of a new prison, and the removal of these prisoners to this county to secure safe keeping, was rendered necessary.

REFORMED PRESBYTERIAN SYNOD.

Fourth Day's Proceedings.

The Synod of the Reformed Presbyterian Church (Old School) reassembled on Saturday morning at nine o'clock, in Rev. Dr. Sproull's Church, Allegheny. Upon the conclusion of the opening exercises, Rev. T. P. Stevenson read the report of the Committee on the Theological Seminary. The report recommends that the Board of Superintendents shall consist of eight members, to be chosen by the Synod; that the election of a Professor to fill the chair now vacant shall be made the order of the day for Monday afternoon; that the recommendation of the Board touching the salary ($1,000) of the Provisional Professor be adopted; that the restrictions forbidding the licensure of students at the end of the third year be removed, and the matter confided to the discretion of the Presbyteries, provided that no students so licensed shall be eligible to a call previous to the expiration of the fourth year, or shall receive any appointments during the fourth session of the Seminary.

Dr. Stevenson moved to amend so that Presbyteries be directed to appoint a member yearly, to represent them in the Board. Adopted.

On motion, the present Board of Superintendents was continued until the close of the present Synodic year.

The section of the report respecting the licensure of students of the third year, or after their third session, elicited considerable discussion, after which on motion of Mr. Stevenson, it was stricken out.

Rev. Dr. Vincent, on behalf of the Board of Trustees of Westminster College, addressed the Synod. He said it was agreeable to the Board to give the Reformed Presbyterian Church an interest in the institution. The reasons are: The Reformed Presbyterian Church has no such institution under its patronage—it needs one. The two Churches agree in receiving into the Theological department none but well educated men; and there is no disposition to put forward any other. The Board regard the Reformed Presbyterian Church as very nearly related to the United Presbyterian, and with whom they would heartily co-operate, hence the proposition now made. The College has been in existence fifteen years, and is in successful operation. The average attendance is about two hundred. It has an endowment of $65,000. The property is estimated at $30,000, including buildings, grounds on the property of the Literary Societies, the whole worth from $90,000 to $100,000. The endowment will be raised soon to $100,000. The proposition now made by the Board does not arise out of any necessity, but as an act of courtesy to a sister denomination with which we have a deep sympathy. Such co-operation would be agreeable. Besides, already the College has graduated quite a number of Reformed Presbyterian students, and at present there are several in the institution. The Board now offers to the Reformed Presbyterian Church a Professorship in the College on the condition that it be endowed by the same. The principal design of the College is to educate young men for the ministry. Three-fourths of all the graduates are now in the ministry or preparing for it. The class graduated last year are all Theological students.

The proposition of the Board was referred to a special committee, with instructions to report at the present meeting of Synod.

A general meeting will be held in Dr. Sproull's church this evening, when Rev. A. C. Todd, of Illinois, Rev. A. M. McDonald of Iowa, and Rev. H. H. George, of Cincinnati, will deliver addresses upon the subject of National Reform.

The Lennox Murder Trial—He is Found Guilty of Murder in the Second Degree.

The trial of John Lennox, indicted for the murder of John Morrow, which was commenced in the Court of Oyer and Terminer of Washington County, on Tuesday last, was concluded on Friday evening. The murder was committed on Main street, in the borough of Washington, on the night of the 31st of October, 1864. Lennox and Morrow had got into a quarrel in a tavern about politics. Morrow left the tavern and was followed by Lennox, who shot at him on the street. Morrow returned the fire and retreated down the street. A number of shots were fired, and it is probable that others besides the two mentioned discharged revolvers. A shot took effect in Morrow's abdomen, and he died from the effects thereof two days afterwards. Lennox was arrested some weeks afterwards and committed to jail, and the changes of venue and other delays in his case since that time are well known. He made his escape twice from the Washington jail, and about a month since was placed in the jail of this county for safe keeping, where he remained until taken over to Washington last Monday.

The trial, as we have already stated, commenced on Tuesday morning last, and occupied four days. The case was ably conducted by the counsel for the opposite sides. It was submitted to the jury, who, after an absence of several hours, returned a verdict on Friday night, of guilty of murder in the second degree, and recommended the prisoner to the mercy of the court. Lennox was brought into court on Saturday morning to receive his sentence. Judge Acheson then sentenced him to undergo an imprisonment in the Western Penitentiary, in Allegheny City, for a term of eight years. He was brought from Washington to this city on Saturday night, and lodged in our county jail for safe keeping, until yesterday, when he was taken to the Penitentiary by Sheriff Smith.

SOCIETY OF THE 102 P. Flour has declined since my last issue. There is a better feeling to-day among dealers. Flour is active at the quotations given, and sales the past two days have been heavy. Do not look for any material change in Flour.

Parties ordering will have the benefit of the declines should there be any change.

Demand for Oats, Rye and Eggs is good.

The Daily Commercial

MONDAY, MAY 27, 1867.

THE General Synod of the Reformed Presbyterian Church will hold its next annual meeting in the Church of Dr. DOUGLASS, in this city, on the third Wednesday of May, 1868.

THERE is a loud call from the South for speakers in behalf of the Republican cause. Senator WILSON, whose speeches and general course have won for him general commendation, will, it is said, soon return to that field. It is the universal testimony that his labors there give promise of the best results.

THE attempt to substitute License for Prohibition has failed in the Massachusetts Legislature, by a vote of more than two to one. The question was exhaustively discussed, and the result is a signal triumph of the Prohibitory principle as embodied in the existing law. It will be enforced as rigidly as it is possible to do it. The rate at which the terrible curse of drunkenness has increased of late, has secured for the supporters of this principle the earnest wishes of tens of thousands of those who doubt its expediency. The question is likely to enter into the next political contest in the State. While the Prohibitory principle forms no part of the creed of the Republican party, the Democrats are manœuvering in every way to obtain some advantage—and it is barely possible they will succeed.

JEFFERSON DAVIS, who was so poor as to enlist the pity and contributions of the supporters—North and South—of the lost cause, is rich enough, it seems, to purchase a Summer residence in Canada. The fact suggests that he feels quite unconcerned as to the future, that he either does not expect to be tried, or if tried, his private and social arrangements will not be interrupted. All this aside, it is pretty well understood that the contributions referred to have made DAVIS quite a millionaire. By going to Canada and investing there he at least escapes the payment of the taxes which the Government exacts, and which every loyal man so willingly pays. It is worthy of remark that though possessed of plenty of money, Mr. DAVIS has not yet announced the amount of his contribution for the suffering poor in the South.

THE immigration coming to this country from Ireland, the present year, is larger than at any previous time. According to representations from the ports of their embarkation and those where they land, the numbers are prodigious. It appears like a transfer, under some mighty decree, of the entire mass of the population in some sections. The south of Europe never saw, in past ages, such huge masses of stranger people coming among them. It furnishes a study for philosophers and for politicians. It has already attracted the attention of working men, apprehensive of an excess in the supply of labor and a consequent reduction of wages from this source. The effect of so sudden and enormous an increase of people, who, of course, will be clamoring for a vote within a short time under Democratic auspices, is a subject well worthy of consideration by philosophic politicians, if there are any of that genius among us. The infusion of so large a new and raw element can scarcely fail to be perceptible in the population, especially in cities where Irish emigrants show a disposition to gather and remain, instead of spreading into the rural districts, and engaging in agricultural pursuits. The distinctive character, ideas and manners also are less likely to change, in assimilation to those of American people, when they come and continue in the same associations that they have before had. We look upon their exodus from their old homes and their rushing hither as a phenomenon in human history. And as such, its consequences both on themselves and the country must be contemplated with profound interest, not unmixed with apprehension.

THE SILLY DREAM.

One would think it about time for our Southern brethern to wake up, or stop dreaming, or to stop telling their silly dreams connected with the lost cause. But it seems, that all the shaking they have had for their morbid somnambulistic pranks, has not aroused them to a perception of their true condition. Some of their sapient oracles insist still that they can be independent if they will go the right way to work. We have great faith in work, as a repairer of damages done to fortunes, and as a path to personal independence. But that a community, especially large and organized society, can live independently, or live at all, on mere work, history and common sense afford us no reason for believing.

The idea inculcated by these wiseacres is, that the States or people living within the boundaries of the lately evaporated Confederacy, by industrious activity in agriculture and manufactures, and by total inaction in political and civil affairs, may gain such wealth and prosperity and power as will make them absolutely independent. The independence of isolation, or isolation as identical with independence, is the hermit's dream. It may be realized by the hermit, on roots and parched corn, and by the South on hog and hominy. But power, the great object of ambition, is not attained by this process. A proud and pouting inaction might secure contempt and oblivion, but it requires an inactivity of more masterly qualities to attain position and power.

It seems also to be totally forgotten that neither agriculture, nor manufactures, nor any other kind of productive industry can thrive without the protection of good government. But good government has something to do, besides the protection of its citizens. It has functions to perform for the public good, and wholesome ends to accomplish, which do not admit of the withdrawal of large numbers of citizens from participating therein. The Union is an organization embracing those States whose dreaming politicians would have them follow into a sort of political syncope.

These States must be represented by somebody in the General Government. Revenues are to be raised, and taxes on all classes are the approved mode of equalizing the exactions. Military service may be required, and a pettish purpose of inactivity will be hardly taken as an excuse or exempted. Equal laws are to be executed, Courts are to be maintained, peace and order are to be secured in all the neighborhoods. Government there must be and will be. And the true way for the people is plainly marked out before them. It is to obey and respect and support the Government as at present established, and dismiss the dreams of sectional independence. They may be independent with the rest of the country and Nation, but they cannot be independent in a State of isolation. The experiment, for obtaining that object, failed utterly and fatally, when undertaken with all the advantages accumulated by years of political power and social prosperity. It is unspeakably absurd to indulge hopes of it now, in the condition in which the failure leaves the victims of a former delusion.

The Union League, New York, and Mr. Greeley.

The original resolutions offered in the Union League, New York, discountenancing and rebuking the act releasing Jefferson Davis, and condemning Mr. Greeley for the part he took in the proceeding, were rejected—89 to 102. After that the following resolutions were adopted:

Resolved, That the Union League Club of New York decidedly disapproves and condemns the bailing of Jefferson Davis, the head of the late bloody rebellion, believing that he has been guilty of unparalleled crimes against his country and humanity; and a decent regard for the patriotism of the people, for the sacrifices of the war and for the sacredness of justice, required that he should be detained in prison until tried for his crimes.

Resolved, That there is nothing in the action of the Hon. Horace Greeley, relative to the bailing of Jefferson Davis which calls for any proceeding on the part of this club.

THE question of opening the Public Library on Sunday is again agitated in Boston. The Trustees have voted that it is practicable to open between two and ten P. M. on Sunday, but the question rests with the City Council. Free reading rooms and free churches, it is argued, are not only practicable but essential to the welfare of a large community, and though an innovation, the proposition is likely to be carried.

Senator Sumner on the Russian-American Treaty.

The advance sheets of Senator Sumner's carefully revised speech, in Executive Session on the Russian-American treaty, have been sent out. It narrates the origin of the treaty, examines the character of the possessions under different heads—its population and productions—and accompanies everything with copious references to authorities. The distinguished Senator concludes his elaborate speech as follows:

"As these extensive possessions, constituting a corner of the continent, pass from the Imperial Government of Russia they will naturally receive a new name. They will be no longer Russian America. How shall they be called? Clearly any name borrowed from classical history or from individual invention will be little better than a misnomer or a nickname unworthy of such an occasion. Even if taken from our own history it will be of doubtful taste. The name should come from the country itself. It should be indigenous, aboriginal, one of the autochthons of the soil. Happily such a name exists, which is as proper in sound as in origin. It appears from the report of Cook, the illustrious navigator, to whom I have so often referred, that the euphonious name now applied to the peninsula which is the continental link of the Aleutian chain was the sole word used originally by the native islanders "when speaking of the American continent in general, which they knew perfectly well to be a great land." It only remains that, following these natives, whose places are now ours, we, too, should call this "great land" Alaska.

Another change must be made without delay. As the settlements of this coast came *Eastward* from Russia, bringing with the Russian flag Western time, the day is earlier by twenty-four hours with them than with us, so that their Sunday is our Saturday, and the other days of the week are in corresponding discord. This must be rectified according to the national meridian, so that there shall be the same Sunday for all, and the other days of the week shall be in corresponding harmony. Important changes must follow, of which this is typical. All else must be rectified according to the national meridian, so that within the spere of our common country there shall be everywhere the same generous rule and one prevailing harmony. Of course, the unreformed calendar, received from Russia, will give place to ours, old style yielding to new style.

General Grant and the Presidency.

According to the Washington correspondent of the Cincinnati *Commercial*, Judge Cartter, of Washington, recently had an interview with Gen. Grant, on the subject of the Presidency—not to bring him out as a candidate, but to have him declare in favor of Senator Wade, or if he would not do that, strike a bargain whereby that Senator would have the advantage of Grant's favor for the Vice Presidency. The writer says:

"He told Gen. Grant that it would not do for him continue in his padlocked condition any longer; that the people were looking about for the 'coming man,' and that if he was going to come it was time that he was coming along. *He told him that he wanted to know explicitly, first, whether he would be a candidate for the Presidency, and if so, secondly, whether he would have any objection to having Benjamin F. Wade upon the same ticket as candidate for the Vice Presidency.*

"It was noticed that Gen. Grant gave his traditional cigar an extra twirl in his mouth, and remarked that he was obliged to say that those were rather plain and direct questions. Cartter did not hesitate to indorse the proposition, and continued to press the question. Gen. Grant, after a minute's deliberation, said that he really did not feel desirous of becoming President of the United States; that he had been honored and trusted in a degree that was a surprise to himself; and *yet he felt that if the people called upon him to become a candidate for the Presidency of the party that had been for the war for the preservation of the Union, he would not feel that he was at liberty to decline;* and as a matter of course, he would have nothing whatever to say, in such a case, as to the second person on the ticket, it was a matter for the wisdom of the people to determine, and he certainly could have no objection to Hon. B. F. Wade, of Ohio. All of which was taken by the B. F. Wade party, represented in this interview by Chief-Justice Cartter, to mean in so many words, that *Gen. Grant was and would be a candidate for the Presidency.*"

The Late Boat Race.

We print in our local column, this morning, the testimony taken to establish the claim of foul put in by Hamill, against Brown, in the late race. The testimony is on oath, and it should be borne in mind that nearly every witness was either a backer or in some way the friend and supporter of Brown, against Hamill—in other words, the testimony is from Brown's side, but overwhelmingly against him and in favor of Hamill. It will attract the attention of many who have not taken an interest in the contest, should there be no rebutting testimony—and it is not understood that any exists—the decision that has been rendered in the case will scarcely be ratified by the public. The popular verdict is likely to be, that the decision was rendered on insufficient or partial testimony, and that it does not do justice to Hamill and his friends.

The Peace of Europe not Permanent.

The London *Times* argues that the expectations of permanent peace are delusive, "and that the real danger that threatens us all now as much as before the Luxemburg difficulty, remains unexorcised and unprovided against." The *Times* utters this sentiment:

So long as the policy of Europe shall be virtually in the hands of Sovereigns instead of their peoples, so long as the nations are content to be led, like sheep, whither their rulers please, either to the pasture or to the slaughter, so long as false ideas of honor and romantic aspirations of nationality are enough to set the hardest part of the soberest population in a blaze, so long as the study and practice of the arts of destruction are more honored and valued than the cultivation of the arts of peace, *we have no solid guarantee that a new Luxemburg may not be found in some other petty fortress*, and a new cause for national susceptibility in some other half-forgotten treaty and half-unknown State.

"THE Oldest Inhabitant" declines settling the suffocation question. He says that that properly belongs to the department of "A Legal Friend." At present "The Oldest Inhabitant" is engaged in a weather reminiscence, and thinks he has never yet seen such a May. This is the 25th, and scarce any corn planted in this region—cause, postponement on account of the weather; and he thinks that nothing like this has happened in his time; but his wife insists that "father forgets." She says their son Tommy's daughter Betsie was born the 6th of June, '38, at three o'clock in the morning, and that there was quite a frost at the time—that the weather had been "powerful backward and onpleasant, mostly, for six weeks." In '50 they went to Ohio to visit son John, and meant to go in May, but the weather was "so onstiddy," they waited until June 1st, when "the woods showed no sign of green," and she adds, "as near as I can remember, we've had considerable of rough weather, changeable and oncomfortable ginerally, every May for the last forty years!"

ALTHOUGH General Butler intimates that he does not intend to give the subject up, there is scarcely any possibility that he will in the future be more successful than he has been in the past in establishing his charge that Booth's diary was "spoliated" after it was taken from his body. There would seem to be other questions more worthy of Gen. Butler's efforts—questions more directly bearing on the interests of the nation—than this. The government officers who were engaged in investigating the conspiracy, and who are better posted in the case than any outsiders can possibly be, express the opinion that Booth wrote the statements published as in his diary with the expectation that they would be published, and it is known that they contain falsehoods. For instance, in the first paragraph he states that he had ridden sixty miles during the night after the assassination, when the truth of the matter is, as developed on the trial, that he had ridden only from the theater to Dr. Mudd's house, which is twenty-seven miles.

THE London *Spectator* says a story is afloat, and by some believed, to the effect that Mr. Seward has been negotiating for the purchase of all British America, and "is only holding out for Vancouver's Island." The N. Y. *Times*, which has frequently evinced superior knowledge of affairs in the State Department, thinks the story "is in advance of truth;" that while in recent diplomatic passages this matter may have been broached, it is altogether nonsensical to suppose the thing has gone so far as the *Spectator* seems to think. The *Times* hopes it will be brought about before Mr. Seward retires.

CERTAIN leading rebel generals appear to have had no scruples about using the First National Bank of New Orleans to assist them to earn an honest penny. Their zeal to be reconstructed in this way was something rather remarkable. Beauregard, by a note for $40,000 and overdrafts amounting to $72,000, was reconstructed one hundred and twelve thousand dollars' worth. Gen. Dick Taylor, $37,500; Gen. Harry Hays, $20,000; Col. J. O. Nixon, $80,000 worth, and Gen. Wade Hampton and others in considerable sums.

ROHRER'S EXPECTORAL

WILD CHERRY TONIC.

Originally this tonic was largely used in Switzerland—as early as 1700—with great success, and subsequently brought to America by Dr. JOHN JACOB ROHRER, who emigrated in 1732. He used it as an infallible remedy for the following complaints in this country: Coughs, Colds, Sore Throats, Aphonia or Loss of Voice, Laryngitis, Bronchitis, Catarrh, Pulmonary Phthisis or Consumption, Pneumothorax, Emphysema of the Lungs, Palpitation of the Heart, and Atrophy of the Heart. Diseases of the Stomach and Intestines, Indigestion, Dyspepsia, Diarrhea, Dysentery and Piles. Diseases of the Liver and Kidneys, Abscesses of the Liver, Deficient and Augmented Secretion of Bile, Inflammation of the Kidneys and Bladder. Fever and Ague, Remittent Fever, Typhoid and Typhus Fever. It is a certain and sure preventive and cure for Asiatic Cholera. It eradicates all Pustular Diseases of the Skin, and as a Blood Purifier there is no compound to compete with it. For diseases of Females in weakness and prostration, Chlorosis or Green Sickness, to which young females are liable, and in weakness and general debility, there is no Tonic like it. This Tonic will cure and alleviate all morbid affections the human system is liable to. Try it? It will speak for itself when once given a fair trial, its great remedial powers never fail. It is a purely vegetable mixture, selected strictly from among the best Roots and Herbs in the ancient and modern Materia Medica.

Suburban Districts—Consolidation.

To the Editor of the Pittsburgh Commercial:

"An outsider" gives some telling figures in favor of consolidation, in your paper of the 22d inst., which would go far to convince me, if I were not already convinced. Some "outsiders," between the rivers, are in favor of consolidation if all the proposed district is included, but utterly opposed to being consolidated with the old city alone. The fear that they may be compelled to go into the city district by the overwhelming city vote, whilst one or both of the districts north and south of the rivers may stay out, inclines them to oppose the project generally. Now, as the first of these propositions is morally certain to be realized, their opposition cannot prevent it; but their example and influence may go far to prevent some "outsiders" in the other districts from voting to go in; thus they help to bring about the very thing they do not desire—vzi., a partial consolidation. They are really in the same predicament as the people of part of Reserve and McClure townships on the north side of the river, who in spite of their wishes have been taken into Allegheny City. Some of them were opposed to any consolidation; but now almost to a man they will go in for general consolidation; wisely preferring to be a part of the great consolidated city of Pittsburgh to being part of a "one-horse" concern of one-third the size.

There is still another view of the question which is important. It may be safely predicted that sooner or later, if the general consolidation is not accomplished, each of these outlying districts, whether between the rivers, or north or south of them, is bound to be annexed to the corporation nearest to it, just as has been done in the case of Reserve and McClure. This sort of gradual annexation does not allow to the rural districts any advantage in taxation. The general consolidation now proposed gives a fair reduction of tax. It seems to me wiser to go heart and voice for this just arrangement, than to take the chances of being absorbed in detail, and made to bear a full share of taxation, instead of, as now proposed, having the reasonable discrimination of one-third in favor of the rural districts. ANON.

THE assertion by Ex-Detective Baker, in his book, that Mrs. Surratt confessed to him her complicity in the assassination plot, necessarily attracts much attention, but not more than the fact that Baker did not testify to this on the woman's trial. The Ex-Detective's book, like its author, has some rather remarkable features; and the reader of some of the astounding disclosures will naturally express surprise that so many wonderful things should have been kept secret so long. Lest a suspicion should arise as to the entire accuracy of the author's recollection, it should be borne in mind that he is a very remarkable man, and that when his "disclosures" have been disputed by those against whom they chiefly bear, it will be time enough to question them. As to the Surratt confession, the assertion is not likely to be disputed.

A LETTER from Chicago alludes to the unusual emigration from the East this spring, not of foreigners but of New England people of the old stock, chiefly from Massachusetts and Connecticut. There is a very rapid change of population going on in our manufacturing towns. Remarks the Springfield *Republican*, foreign working people have come in to such an extent as in many villages to constitute the controlling element, and the natives do not find it pleasant to live among those whose religion and social and domestic life is so unlike the New England style.

JULES JARED'S
"EMAIL DE PARIS,"
THE NEW
BEAUTIFIER OF THE SKIN

Testimonials from Celebrated Ladies:

The secret of beautifying the Skin being known only to Messrs. Jared & Rene, they honestly state that it differs from all other preparations. It gives to the most harsh and freckled skin both the color and texture of polished ivory, removing all discolorations, whether appearing as freckles, tan, morphew, moth or black-worm specks, and is especially successful in smoothing out the marks left by small-pox.
The agents of "Email de Paris" most confidently submit to the public the earnest endorsements of such distinguished ladies as

Signora Ristori, M'lle Felicita Vestvali, Miss Maggie Mitchell, Mrs. D. P. Bowers, Lucille Western, Mad. Ponisi, Mrs. Emma Waller, Lucy Rushton, Noemie de Marguerittes, Miss Agnes Perry,

And many others, whose high standing in the profession gives the stamp of truthfulness to their intelligent and genuine approval.
The beautiful Lucille Western says:
I find that the "Email" produces all the brilliancy of rouge and lilly white, with the great and peculiar advantages of perfect harmlessness. It really adds to the softness and beauty of the skin.
The Magnificent Vestvali says:
I have suffered so much from the various white lotions, &c., which my theatrical profession obliges me to use, that I consider it a perfect benefaction to find a preparation which gives the necessary whiteness to the skin, and leaves the skin cool and smooth.
Miss Maggie Mitchell says:
I have tried the skin beautifier "L'Email de Paris," and found that it instantly imparts a natural bloom and freshness to the complexion.
"Jared Email de Paris" is used as a delicate beautifier of the skin for Theater, Saloon or Ball Room, by the most refined and scrupulous ladies; producing all the beautifying effects of rouge and lilly white, without their vulgar glare or injury to the skin.
Sold by all first-class Druggists, Perfumers and Ladies' Hair Dressers.

THE AUBURN FILE WORKS
AUBURN, NEW YORK,
Would call the attention of manufacturers and those using Files and Rasps to the superior article of HAND CUT FILES, which they are now making from the best quality of Cast Steel, consisting of Flat, Hand, Mill, Saw, Round, Half Round, Square, Taper Saw Files, Horse Rasps, and all other kinds, which are in no respect *inferior to any now made.*
It accords neither with our taste or our principle to assert that our Files have never been approached by any other manufacturer. The Files must speak for themselves, and those who wish to purchase largely are sufficiently wise to accept the evidence of the files rather than the assertion of the manufacturers.
Your orders may be left with T. H. RICHARDS, Esq., 30 Fifth street, Pittsburgh, where samples of some of the principal kinds may be examined and prices obtained. Your orders will be carefully executed at the manufactory, and warranted to give satisfaction or Files returned.
We have permission to refer to the Pittsburgh Novelty Works, who are now using our work to their entire satisfaction. Under date of November 28, 1867, they say:
"The files give general satisfaction in regard to "*temper and cut*. The only objection we find is, "they are cut too fine for our use. A coarser cut "would suit us better. Please remember this when "we send another order."
Also of May 6th, 1867, enclosing draft for $183 73,
"Your Files give satisfaction, and you have permission to use our name in regard to their "quality."
Please call and examine samples before placing your orders.

THE FIRST NATIONAL BANK OF PITTSBURGH, PA., (late Pittsburgh Trust Company,) Capital 500,000, paid in, with privilege to increase to $1,000,000.

The Pittsburgh Trust Company having organized under the Act to provide a National Currency, under the title of the FIRST NATIONAL BANK OF PITTSBURGH, would respectfully offer its services for the collection of Notes, Drafts, Bills of Exchange, &c.; receive money on deposit, and buy and sell Exchange on all parts of the country.

The success which has attended the Pittsburgh Trust Company since its organization in 1852, will, we believe, be a sufficient guarantee that business entrusted to the new organization will receive the same prompt attention.

Having a very extensive correspondence with Banks and Bankers throughout the country, we believe we can offer unusual facilities to those who do business with us.

The business will be conducted by the same officers and directors.

The Daily Commercial

CITY MATTERS.

Foot Crushed.—An old gentleman by the name of Mr. Forse, in getting off one of the Rebecca street cars, on the Manchester Passenger Railway, near the Allegheny Gas Works, on Saturday, had his foot badly crushed by getting it caught under the wheels of the car.

The Flour Market.—In our columns this morning will be found the prices current issued by T. C. Jenkins, an active and reliable merchant, who understands his business, and has done much to further trade interests in this city. Mr. Jenkins claims that the quotations are correct as far as possible, and dealers throughout the country towns will find them of interest.

News Depot at West Newton.—Mr. E. Patterson, agent for the Pittsburgh Commercial, has fitted up a neat news depot in the village of West Newton, where all the late newspapers and magazines will be kept for sale. The people of West Newton and vicinity will find on Mr. Patterson's counters every variety of reading matter, and they will find it to their interest to sustain him.

Allegheny Library Association.—The second annual meeting of the Allegheny Library Association will be held at the Library rooms, this evening, at eight o'clock. A public meeting will be held in connection therewith, for the purpose of creating increased interest in the Library, and extending the sphere of its usefulness in the community. Several addresses may be expected.

Needs Attention.—Mr. J. B. Williams, Assistant Health officer, has been instructed by the Board of Health, to notify the Trustees of the Second U. P. Church, of the condition of the graveyard on Stevenson street, in the Eighth ward. The yard is not enclosed, and persons have recently been engaged removing bodies from the graves. The matter should be attended to at once.

Parepa and Brignoli.—Mr. Fryer, the accomplished avant-courier of the Parepa and Brignoli Opera Company, was in the city Saturday, endeavoring to make arrangements for the appearance of the company here in a few weeks. Unfortunately all the halls and places of amusement were previously engaged for the period he desired, and this corps of talented artists will be compelled to give Pittsburgh the go-by for the present. Mr. Fryer states, however, that they will visit this city at an early day, due notice of which will be given.

Burglary and Assault.—A man named Wm. Harrison was arrested yesterday morning by the Allegheny police, on a charge of breaking into the dwelling of Mr. James Hoag, in Reserve township, on the previous night. It appears that the burglar entered Mr. Hoag's bed chamber, and while prowling around the room awakened Mr. Hoag, who sprang from his bed, when he was knocked down with a chair. Suspicion attaching to Harrison as being the guilty party, he was arrested and held for a hearing.

Good Templars at Canonsburg.—A Lodge of I. O. of G. T., was organized in the Methodist Episcopal Church, Canonsburg, Washington county, on Friday evening, 24th inst. by Rev. James A. Davidson, State Lecturer, and the following officers were duly elected and installed: Wm. McDaniels, W. C. T.; Miss Mary E. Kirk, W. V. T.; D. C. Van Hater, W. S.; Mrs. C. B. Turner, W. T.; Mrs. P. [illegible]and, W. I. G.; W. R. McConnell, W. O. G.; Mrs. Mary Forrester, R. H. S.; Miss Mary Laud, L. H. S.; [illegible] B. Smith, W. M.; Miss H. Laud, W. D. M.; Miss Lizzie Kirk, W. A. S.; H. C. Gleason, W. F. S.; Rev. D. A. Pierce, W. Chaplain; John [illegible]ook, P. W. C. T.

Arrest of a Fugitive.—On Friday, a dispatch was received at the Mayor's office from Steubenville, requesting the police to arrest a man named John Wilson, an employe of the circus company of Messrs. Haight & Chambers, on a charge of being a fugitive from justice. It appears that some months since Wilson and his brother were arrested on a charge of entering the house of an aged couple in Jefferson county, Ohio, and after tying them with ropes, robbed them of a considerable sum of money. They were arrested shortly afterward, but previous to their trial managed to escape from the jail at Steubenville. Officer Cupples visited the circus on Friday night, and identifying him from the description received, arrested him, and on Saturday conveyed him to Steubenville.

Firemen's Parade in East Birmingham.

Notwithstanding the inclemency of the weather, on Saturday afternoon, the borough of East Birmingham was all astir to witness the firemen's parade. The procession was headed by the Mechanics Hose Company, of Birmingham, who, being the invited guests of the Walton Hose Company, had the right. The Mechanics Hose Company numbered about fifty men, and were costumed in red hats, red shirts, belts and black pants. They drew their beautiful Hose Carriage, which was decorated with the American flag and appropriate trimmings.

This company was followed by the Walton Hose Company, of East Birmingham, numbering eighty men, who were costumed in black hats, red shirts, belts and black pants. Their new Hose Carriage, which was drawn by the members, was decorated in handsome style with wreaths and garlands of flowers [illegible] Carson to Meadow, up Meadow to Sarah, up Sarah to Joseph, down Joseph to Chess Mill, counter-marched up to Carson street, up Carson to Brown, up Brown to Sarah, down Sarah to the Walton engine house, where the apparatus was housed, and the Walton Hose Company took formal possession of their new building. The turn out was very creditable.

District Court.—Before Judge Hampton.

The jury in the cases of Jarislowski, Brother & Co. vs. M. Simon & Co., and same vs. Bradley & Wilton, which were tried together, returned a verdict on Saturday morning in favor of defendants.

Court of Common Pleas.—Before Judges Sterrett, Mellon and Brown.

An appeal from the decision of the Register, in admitting to probate the will of James Dain, deceased, was argued in this Court on Saturday morning. Mr. Dain was formerly proprietor of an extensive livery stable, on Penn street, in the Fifth ward, and retired from business a few years since, with a fortune amounting to about sixty thousand dollars. In January last he died, and left a will, bequeathing the bulk of his property to his eldest son Thomas, and naming him as the sole executor of the estate. The will disinherits the other children of the deceased, and leaves but a small amount to the widow. James Dain, one of the sons, opposed the admission of the will to probate before the Register, but being overruled appealed to the Court of Common Pleas. The grounds upon which the will is asked to be set aside are: First, That the deceased, when he executed the will, was of unsound mind, and unfit to make the instrument claimed as the will. Second, That if deceased made the will, as claimed, he did it under undue influence of the son named as executor. The Court held the case under advisement.

In the matter of the applications for charters by the St. Rochus' Beneficial Society of Birmingham, the Mutual Building and Loan Association of this city, and the Liberty Association, No. 1, of Allegheny; petitions were filed and orders for publication made.

The counsel for defendants in the case of William Lindsay vs. George G. Negley et al., made a motion for a new trial, and filed reasons therefor.

POLICE INTELLIGENCE.

[Before Mayor Morrison, of Allegheny.]

RAID ON GIPSIES.

A tribe of Gipsies, a few weeks since, located their camp on the farm of Mr. Davis, above "Shintown," in Ross township. On Friday, Mr. A. J. Thompson, a farmer residing in that locality, appeared at the Allegheny Mayor's office, and preferred a charge against them of common vagrancy. Several of the Mayor's police went up to pay them a visit, bringing back with them two of the tribe, the balance not being "at home." They had a hearing on Saturday, and being provided with a license as horse dealers from the United States Collector, and, furthermore, having permission to camp on the premises they occupied, the prosecution failed to substantiate the charge, and the case was dismissed, the costs being paid by the prosecutor.

[Before Alderman McMasters.]

BREACH OF THE PEACE.

Charles A. Ball preferred a charge of breach of the peace, on Saturday, against Joshua Let, a colored man. The parties reside in "Hayti," and Lee was accused of having threatened to kill Ball, and with disturbing the public peace. He was arrested and held to bail to keep the peace.

[Before Aldeman Nicholson.]

ALLEGED LARCENY.

Chas. Hartman was arrested on Saturday, charged with larceny, on oath of Samuel Duff. In default of five hundred dollars bail he was committed to jail for a hearing to-day.

[Before Alderman Morrow.]

FINALLY COMMITTED.

George Crawford had a final hearing on Saturday, on the charge of assault and battery, preferred by Celia Burns, which resulted in his being committed to jail for trial.

[Before Alderman Thomas.]

COMMITTED FOR TRIAL.

Evan Rees, charged with deserting his wife, Mrs. Catharine Rees, had a hearing on Saturday, and in default of bail, was committed to the county jail for trial.

[Before Justice Walker, of North Fayette Tp.]

TWO CHARGES.

Edward Bendlow was arrested on Saturday, and taken before the above magistrate, charged with forcible entry and breach of the peace. He was committed to jail for trial, in default of bail.

[Before Alderman Johns, of Seventh Ward.]

FALSE PRETENSES.

Elizabeth Reed made information against Ida Howard, charging her with obtaining board under false pretenses, to the amount of five dollars. The accused was held to bail. The parties reside in the Seventh ward.

ATTEMPT TO DEFRAUD.

Amanda Foster made information against John Coulter, charging him with cheating her out of three dollars. Amanda alleged that when she went to pay defendant seven dollars, she gave him a ten dollar note, when he refused to return her the change. The defendant was arrested, restored the money, and was discharged on payment of costs.

VIOLATING SUNDAY LAW.

John Satterly, of Troy Hill, was charged, on oath of W. J. Logan, with selling liquor on Sunday. Warrant issued for arrest of defendant.

W. J. Logan made information against J. Ebert, of Allegheny City, and Martin Berger, of Troy Hill, charging them with selling liquor on Sunday. Warrants issued for the accused.

MALICIOUS MISCHIEF.

James Stuart made information against Matthew Dodson, (colored), charging him with malicious mischief in breaking in a door of his house. Dodson was arrested and held to answer.

Public Amusements.

Opera House.—The "Black Crook" commences the fourth week of its very successful run this evening. Not less than twenty thousand people have witnessed the play during the past three weeks, and although the house is not so crowded as on its early representations the audiences continue to be large.

Pittsburgh Theatre.—To-night, W. C. Smythe, the manager, will have a benefit, and a very attractive bill is presented for the occasion. The White combination troupe, who will make their last appearance here to-morrow evening, will appear in a variety of their best acts, and as it may be a great while before such another excellent troupe is presented here, those who admire "poetry in motion," should attend. Smythe will make his appearance in a popular character, and is worthy of a substantial benefit.

Academy of Music.—This evening, the Philomathic Circle will give a grand Literary and Musical Entertainment at this house. The programme contains many excellent selections, and a most enjoyable entertainment is promised.

Messrs. Hall and Burke, managers of the Academy of Music, have re-engaged the popular actor, Mr. James E. Murdoch, for four nights, and he will appear to-morrow evening, in his favorite character of Beverly, the Gamester.

Varieties.—The famous clog dancers, Childs and Carroll, and Miss Ida Wallace, songstress and danseuse, will make their first appearance this season this evening. All the old favorites will also appear.

THE LATE SCULLING MATCH.

Brown's Conduct During the Race.

Hamill's Claim of Foul Sustained.

Sworn Testimony of Brown's Friends.

Original Opinion of the Race Held by Kinzer, Brown's Judge.

On Saturday afternoon an investigation into the alleged charges of foul in the race between James Hamill and Walter Brown, took place at the Mayor's office. A large number of spectators were present, and the testimony adduced created a decided sensation among them. The witnesses were principally from among the backers of Brown, and are known as gentlemen of character and respectability, some of them being members of the McKee Boat Club, who entertained Brown during his stay in the city. The object of the investigation was merely to show to the public that the race had been decided by the referee before the full facts in the case had been ascertained. In the absence of Mayor McCarthy, Acting Mayor Owston swore the witnesses to the truth of their statements. The following are the affidavits:

TESTIMONY OF WM. REES.

Wm. Rees, sworn—I witnessed the sculling race on the 21st inst., between James Hamill and Walter Brown, and was one of the crew in Brown's guide boat. I was opposed to Hamill in the race, and wished to see Brown win. In no instance in the race did I see Brown give Hamill a fair chance. If Hamill would drop behind, in order to get to the other side, Brown would pull over on him and "jockey" him, and it is my firm conviction that Hamill would have passed him at any time in the race if Brown had acted fair. I told Hamill in the race to stop rowing, as I saw that Brown was fouling him. I was the witness called in after the race, before the judges, and I made the above statement before them.

TESTIMONY OF CAPT. NEELD.

Capt. J. R. Neeld, sworn—I witnessed a portion of the race between Hamill and Brown. I was on Coal Hill. I saw them on their return, and Hamill, I believe, could have passed Brown, if he had not been jockeyed. Brown ran Hamill nearly over the cinder pile at Painter's Mill, and entirely off the course, when Hamill stopped rowing.

TESTIMONY OF JOHN C. FISHER.

John C. Fisher, sworn—On the day of the race I was in the large barge "Duquesne," and accompanied the parties around the course. In going down, and coming up the course, Brown jockeyed Hamill all the way. I saw Daniel Wolf, coxswain of Brown's guide boat, motioning to Brown with his hand and afterwards with his handkerchief, to keep away from Hamill. I am sure that Hamill could have passed Brown if he had had a chance.

TESTIMONY OF JOHN W. M'KEE.

John W. McKee, of Birmingham, sworn.—On the Sunday succeeding the day on which the card of Mr. Brown was published in the Commercial, I was introduced to Brown at the McKee Boat House, at Glenwood. He spoke to me about Hamill's style and manner of rowing, and asked me in what Hamill's success lay. I told him that Hamill generally got ahead and managed to retain his position, when he (Brown) said he would get ahead if he could, and if Hamill passed him he would have to row over him. He left me under the impression that he would not let Hamill pass him, fair or foul.

TESTIMONY OF DAVID CARROLL.

David Carroll, President of the McKee Boat Club, testified that he was in the six-oared boat that piloted Hamill over the course on the day of the race. About Wood street first saw them, when Brown had the lead; a sand boat was swung out into the river, when we called to Brown to keep out of the way, and in pulling from the sand boat Hamill gained upon him; between Ferry street and the Point there was a collision between the boats; after the collision Brown slackened up and the boats came together until within 300 or 500 yards of the buoy boat. We called to Brown to look out for the buoy, when he looked around and rowed ahead of Hamill; while turning the buoy Hamill's boat struck Brown's about the stern; after turning the buoy, Brown did not row so hard as he had done, but apparently watched for Hamill, and after a few strokes they were locked together again. They rowed together in the same way until in the neighborhood of Saw Mill Run, when I called to Brown to cut loose from Hamill and give him a fair chance. Brown replied with a very insulting remark. I then called to Hamill to quit rowing, as I saw Brown did not intend to give him a fair chance. Hamill then backed water; Brown had his left oar on Hamill's left outrigger. John Hamill called to me and asked if it was fair. I replied "no," when John told his brother to quit rowing. Jimmy then went back to his brother's boat, and we came up to the bridge with Brown. I am satisfied that Brown acted very unfairly with Hamill during the race.

TESTIMONY OF JOHN LONG.

John Long, sworn—I am a member of the McKee Barge Club, and was in Brown's guide boat on the day of the race. Brown asked us to get ahead of Hamill during the race and *give him the splash of our oars*, which we refused to do. At or near the Point, Brown crossed over on Hamill and commenced to "jockey" him; continued to do so until they arrived near the buoy, when Brown went ahead and turned first, Hamill being directly behind. After turning the buoy Brown started towards the Manchester shore and Hamill pulled straight up the river. When Brown saw that Hamill did not follow him he turned the head of his boat up stream, slacked his speed and let Hamill come up to him, and then "jockeyed" him until they came to the cinder bank, when Brown run Hamill nearly ashore. Hamill then backed his boat to get away from Brown, but Brown followed him up. Our party was then convinced that the race was not fair, and told Hamill to quit rowing, which he did. Brown then commenced to row very hard up stream, and we followed him in.

TESTIMONY OF HENRY BEST.

Henry Best, sworn.—I was in buoy boat; when both men were coming in the judges called to them to turn the buoy smart. In turning, Hamill's boat struck Brown's, when Kinzer, Brown's judge, called out "foul." Hamill said—"He has been fouling me all the way down." Kinzer then said, "Oh, well." After turning, Brown started for the Manchester shore, and Hamill continued up stream, when Brown turned his boat on Hamill's course. It appeared to be Brown's object to keep Hamill back. Hamill changed positions several times, but Brown always blocked him. I believe that if Hamill had received fair play he could have got ahead of Brown. Kinzer asked to get out at the point, saying there would be a fuss at the bridge. When Kinzer got out he said to the crowd: "*Hold on to your money boys; the race is foul.*"

There were other parties present who were prepared to testify to the above facts, but it was deemed unnecessary to examine them, as sufficient evidence had been elicited to prove that Hamill had not received fair treatment at the hands of Brown. The decision of the referee cannot be reversed, but we see no good reason why it should not be opened, and further evidence on both sides taken. As the matter now stands, neither the friends of Hamill nor Brown are satisfied, and it would be only justice to give the matter a full and complete investigation.

HAMILL CHALLENGES BROWN.

On Saturday evening Hamill forwarded a challenge to Brown to row him a five mile race for two thousand dollars a side, the contest to come off either on the Charles river, at Boston, the Hudson, at New York, or the Schuylkill, at Philadelphia, each party to bear their own expenses. Mr. Hamill desires to meet his competitor on neutral waters, and all he asks, in case the challenge is accepted, is a clear course and fair play.

House Breaking and Horse Thieving—A Chapter of Depredations.

The house breakers and horse thieves have commenced their depredations again. On Thursday night or early Friday morning last, the stable of Messrs. Voegtly & Kopp, in Duquesne Borough, was entered and two horses stolen therefrom. The thieves rode the animals to the residence of Mr. Williams, on Pine Creek, where they left them, but took in their stead a horse and wagon belonging to Mr. Williams. They then proceeded to the residence of Mr. Smith, in the same vicinity, but in attempting to effect an entrance they aroused the inmates, and were fired at several times by Mr. Smith, which had the effect of making them beat a hasty retreat. Mr. Voegtly missed his horses in the morning, and after some trouble succeeded in tracing them to the house of Mr. Williams, where the thieves had left them. Mr. Williams came to Allegheny and gave information of his loss to the police. The horse and buggy were found estray in Manchester shortly afterwards, by a boy, and Mr. Williams being apprised of the fact, came to the Mayor's office, on Friday afternoon, and fully identified the property. There is no clue to the thieves.

The stable of Mr. Ralph Bagaley, located on the bank of the Allegheny river, was also entered on the same night by thieves, who, after hitching up a horse to a light wagon, started off, taking with them two saddles. The dwelling of a farmer named Mr. Harrison was next visited. The thieves effected an entrance into the cellar, and took possession of fifteen hundred pounds of meat which had been cured for summer use. The meat was hauled to the river in the wagon, and placed in skiffs which were stolen from Mr. Farmery. The horse was tied to a tree, where it was found by the owner the following evening. The saddles, however, were carried off.

The barn of a farmer residing about eight miles from the city, on the Butler plank road, was also entered on the same night, by three thieves. After getting four horses ready to drive off, one of the inmates came out of the house, thus frightening them away. A couple of miles nearer the city, the thieves entered a stable and succeeded in getting with a fine horse and a spring wagon.

The thieves changed their base of operations to the line of the Ohio river, and on Friday night a number of horses were stolen. Two horses were stolen from the stable of Mr. Hecker, living near Glendale Station, on the line of the P. Ft. W. and C. R. R.; two from the stable of Mr. Strader, in the same neighborhood; two from the stable of Mr. Caney, at Baden, Beaver county, and a horse and buggy from the barn of Mr. Straw, of Messrs. Straw & Bro., of this city, who reside at Woods' Run. The horses belonging to Mr. Hecker were recovered on Saturday, but no traces of the others have been discovered.

On Saturday morning, a bold attempt was made to rob the dwelling of Mr. Johnston, situated between Glendale and Haysville stations, on the P. Ft. W. & C. R. R. Mr. Johnston is at present in Kansas, and has been making remittances to his family to a considerable amount, which it was supposed was the object of the visit of the robbers. Mrs. Johnston was awakened at an early hour on Saturday morning, by the barking of a watch dog, and as it whined in a strange manner, she got up, went to the window, and looked out. She discovered a man standing at the gate. Supposing that he wished to inquire the location of some house, she raised the widow and asked him what he wanted. The man made no answer, but gave a shrill whistle, and in a few moments another man emerged from the lower part of the house with a dark lantern in his hand and approached the one at the gate. A short consultation was held between the two men, and just at this moment a train appeared in sight. The men then jumped into a wagon, to which a horse was hitched, and drove off rapidly in the direction of the city. Upon rising in the morning Mrs. Johnson found the doors in the lower part of the house had been forced open, and the things scattered about in the greatest confusion. It was also ascertained that the dog had been drugged, but had not partaken of a sufficient quantity to quiet him. No goods were taken, as far as could be ascertained, the thieves having evidently been frightened off.

For Coroner.—William Clawson, Esq., will be a candidate before the approaching Republican County Convention for the office of Coroner. Mr. Clawson has filled the office with rare acceptability during his term, and his re-nomination will be warmly pressed by his friends. No better man could be selected for the position, and being a disabled soldier his success is assured.

Be on your Guard against the imitations and counterfeits of HOSTETTER'S STOMACH BITTERS, with which the pirates who make a dishonorable living, by preying upon the sick and suffering, are now endeavoring to flood the markets of this country. Whenever these poison-mongers are discovered they are immediately prosecuted by the proprietors, who expend thousands of dollars annually in tracing them out and bringing them to justice. Within a short time injunctions have been obtained in the Courts of the United States against a number of individuals and firms, and suits are now in progress against several others, all of whose names will be given to the public. But in spite of the utmost vigilance and activity of their detective agents, the undersigned are, of course, unable to protect the public *entirely* against piratical imitations of a Standard National Tonic, everywhere in request, and as readily convertible into cash as United States Bonds or Treasury Notes. They, therefore, as a measure of precaution, direct attention to the fact that a finely engraved label, representing St. George and the Dragon, and a beautiful proprietary stamp bearing the official endorsement of the Government, appear on every bottle of the genuine BITTERS. The article is further authenticated by a miniature note of hand, with the signature of "Hostetter & Smith," to counterfeit which is a *state prison crime*. The true BITTERS are sold *in bottles only, and never in bulk*. HOSTETTER & SMITH.

FINANCE AND TRADE.

Saturday Evening, May 25, 1867.

The closing day of the week is usually a busy one in financial circles. Heavy checking is required to meet the large disbursements on that day, and our brokers generally have a brisk time. But of late the general lethargy in trade as well as in the manufacturing interests, has curtailed materially the volume of financial transactions, and the line of deposits at the various banking houses, is not as large as in more "flush" periods.

No change is noticed in the New York quotations of the Government series, as reported to Messrs. McVay & Co., but the prices, which are high enough, are well sustained:

—The New York *Herald* notices the condition of the Stock Exchange rather despondingly. The railway share market experienced further depression to-day, and the decline was especially marked in Erie, its closing price being 58¾. It is surmised that the speculative director of this road is "bearing" the stock, in order to "shake out" certain parties who bought it largely on the strength of "puts" sold by him for a consideration of one per cent. for a certain number of days. These "puts" have all expired, and he has no longer an interest in sustaining it, while the real bulls in the stock are unable to resist the force of its downward tendency, although it is in a position where it could be easily rallied, provided the necessary capital was at command. The rest of the market sympathizes with Erie, owing mainly to its extreme dullness, and the persistent efforts of the brokers and other professional speculators to further depress prices continue to keep the public out of Wall street. Such is the dearth of legitimate business that there is a prospect of a stampede from the vicinity of the Stock Exchange, of disgusted and disappointed brokers desirous of finding some more lucrative employment, and already many of the speculators have taken their departure, thinking hoeing corn or following a trade likely to prove more profitable than watching the stock market. The latter has a demoralized appearance at present, but prices are so low that they are hardly likely to go much lower. Yet, notwithstanding a prevailing belief in much higher prices before the year is out, few are disposed to buy. This depression must eventually be succeeded by a strong upward reaction; but in view of the immediate condition and surroundings of the market, no one seems disposed to take the first bold step towards turning the tide.

—A correspondent of an exchange paper furnishes the following interesting statement of the intrinsic value of our paper circulation. It is worth preserving for reference:

When gold is quoted at $1 10, a paper dollar is worth 91 cents nearly.

When gold is quoted at $1 15, a paper dollar is worth 87 cents.

When gold is quoted at $1 20, a paper dollar is worth 83⅓ cents.

When gold is quoted at $1 25, a paper dollar is worth 80 cents.

When gold is quoted at $1 30, a paper dollar is worth 77 cents nearly.

When gold is quoted at $1 35, a paper dollar is worth 74 cents.

When gold is quoted at $1 40, a paper dollar is worth 71 cents.

When gold is quoted at $1 45, a paper dollar is worth 69 cents.

When gold is quoted at $1 50, a paper dollar is worth 66⅔ cents.

—The announcement of the failure of Frazer, Trenholm & Co., has given rise to very considerable discussion among business men, and there are not a few who think they can see in it the beginning of a series of disasters. It is quite certain that the demand for cash gold has been increased in consequence of it, many persons deeming it necessary to ship coin for the purpose of protecting bills on which their names have been placed as drawer or indorser. The firmness of the market, and a knowledge of the fact that the transactions for several days past have been more in coin than in paper which is used to represent gold by the speculators, gives ground for the belief that the maximum of the present rise has not yet been reached.

WEEKLY REVIEW OF THE OIL MARKET.

Office of the Pittsburgh Commercial, Monday, May 27, 1867.

The following are the receipts of oil by rivers and railroads for the past week, compiled from the daily files of the Commercial; also a comparative table for the same period in 1866:

	Rivers.	Railroads.	Total.
Monday, May 20	3,650	1,458	5,108
Tuesday, " 21	2,477	2,408	4,885
Wednesday, May 22	1,211	1,501	2,712
Thursday, " 23	1,634	2,762	4,396
Friday, " 24	3,219	2,183	5,402
Saturday, " 25	127	2,523	2,650
Total for the week	12,318	12,835	25,153
Since January 1	575,101	141,504	716,605
To May 25	587,449	154,339	741,788
Same time 1866	459,337	100,801	560,138
Increase 1867	128,112	53,538	181,650

The market during the week was dull; the sales were the smallest we have recorded for a long time. Buyers were shy and not disposed to operate to any extent. Holders, however, were pretty firm in their views, and not inclined to make concessions in order to effect sales. The stock of Crude on the market is not large; the entire receipts of the week were only 12,318 barrels. The rates for bulk oil were 7@7½c; packages included 12@12½c, according to the gravity. The entire sales of the week were 4,800 barrels, at the prices we have named, a falling off as compared with last week of 6,900 barrels. Most of the refiners have a good supply on hand and are not inclined to invest at the present time. The Eastern and European markets are very dull, having a surplus stock on hand.

Refined Oil.—The market towards the close of the week became dull. Most of the operations were on call, deliverable at any time during the present year at the option of the seller, the purchaser paying $1 ₩ bbl as a bonus. The week's sales of bonded were 7,000 barrels. Prices were for immediate delivery, Philadelphia, light straw to white, 25½c; standard white, 26@26½c ₩ gall. Most of the refiners have sold well ahead, others have contracts that will last for some time. The prospects for the oil men don't look very flattering at present.

Saturday, the market for Crude was firm, with a light stock to operate with. Most of the holders were asking 7½c for bulk. No sales were reported. The market at Oil City is reported brisk, at $2 70 ₩ bbl, with plenty of buyers from the Eastern, Cleveland and Buffalo markets; prices have evidently touched bottom. Refined Oil was more fancied; sales 500 bbls bonded standard white, buyers' option from July 1st to 15th, Philadelphia, 26½c; 500 bbls do standard white, buyers' option September, 29½c; 1,000 bbls do, buyers' option September, 29½c; 500 bbls light straw to white, June, 25½c. These sales were made in Philadelphia.

Free Oil was dull, buyers taking hold sparingly at 43@45c ₩ gallon.

TITUSVILLE, PA.

Messrs. Smith & Coutant, in their circular dated the 24th inst., give the following quotations for ordinary gravities of crude oil delivered on tank cars at the points designated, for the past week:

Petroleum Center	$2 20@2 40
Boyd	2 20@2 40
Pioneer	2 20@2 35
Shaffer	2 30@2 45
Miller	2 30@2 45
Titusville	2 40@2 50

Low gravities, say 45 degrees and under, have commanded an advance on the above rates of 10@20c ₩ barrel. The market has ruled firm at our quotations, and the demand for Pittsburgh and Cleveland has been large. Only a moderate amount has been sold for eastern shipment.

The shipments for the week, via Oil Creek Railroad, have amounted to 14,811 bbls., say:

To New York	8,461 bbls.
To Cleveland	4,729 "
To Other Points	1,657 "

The estimated daily production of Oil in Western Pennsylvania is now about 7,500 barrels.

Philadelphia—Petroleum continues very dull and prices drooping. Says the *Commercial List*, of Saturday last: Small sales of crude are reported at 18@18½c; 7,000 bbls refined, in bond, at 25@26c for pale light straw to white, and standard white; and small lots of free from 40 to 43c ₩ gallon, as to color. We quote standard white for future delivery, from the present to the end of the year, at 27@27½ to 31c. The sales of the week foot up 16,000 bbls for the past week, were 6,586 bbls crude, and 14,563 bbls refined. Fourteen vessels are now loading for foreign ports. The exports, since January 1st, 1867, were 9,097,627 gallons, against 5,358,886 gallons same time last year.

PRODUCE AND GENERAL MARKETS.

Office of the Pittsburgh Commercial, Saturday Evening, May 25, 1867.

Our general markets throughout the past week have ruled very quiet, and in many trades business has been very unsatisfactory. During the whole week, with the exception of one day, the weather has been most disagreeable. The opinion is general that there will not be any decided change or improvement until after harvest. The quietness and stagnation prevailing is not confined to our own city, but seems to exist all over the country. Canals and railroads are not employed to near their full capacity. During the week under review there has been no changes in prices of any importance to notice. The demand for groceries has been fair. Corn has been inactive all the week. Holders are not disposed to give way in order to effect sales, but we note a decline of a few cents. Rye is active at good rates. There is but little doing in wheat, in this market, as dealers are afraid to order at present, and millers cannot see margins. In flour there has been considerable decline. One of our heaviest dealers has made some large sales, during the week, at a slight reduction from last week's prices, keeping pace with the decline in the West. The grades of flour handled by our principal dealers are higher than in any of the Eastern cities—brands thrown on the New York and Philadelphia markets could not be handled here, as our dealers have to guarantee and cannot well sell on the merits of the brand. Our quotations occasion shipments to this market frequently of low and partly unsound grades of flour, that have to be reshipped to make sales. The brands of flour handled here must command good prices until after harvest. Communications received from many leading mills state that they are about to stop operation for the present. We have yet nearly two months to run on old wheat. The stock of flour on all our markets is light. Butter is very dull; this immediate vicinity, being about able to supply the demand. Eggs have been active all the week at good prices. Potatoes are in demand. There are very few, if any peach blow potatoes on the market, and they would find ready sales at good prices. There is a fair trade doing in provisions.

The receipts of some of the leading articles of produce, per river and railroad, since our last, were as follows: Flour 325 bbls; apples, 13 bbls; cheese 631 boxes; corn 335 sacks; wheat 390 sacks; oats 559 sacks, and butter 25 packages.

We quote as follows, which are the wholesale prices, unless otherwise stated:

Ashes—We quote soda ash at 4½c; pot ash at 8½c, and pearls at 14c ₩ lb.

Beans—The market is rather scarce of choice articles of beans, and the demand is good at $3 ₩ bush, from store, for choice small white.

Butter—Fresh roll has been coming in quite freely and continues in excess of the demand. Choice articles are the only kind saleable. We quote the market very dull at 15@20c ₩ lb, from store. Excellent roll butter retailed in the market yesterday at 20@25c. A leading firm in the New York City butter trade says, in regard to the trade of that city, the following, which we give as a matter of interest to our Western readers:

"The disastrous close of the last year's butter crop, particularly in our Western State dairies, should have the effect of causing them to pursue a different and more correct course in disposing of their crop. [illegible]"

The following are the New York City quotations, as given in the *Commercial List* of this date:

Fresh pails, ₩ lb, 32@35c; State, firkins, yellow, 32@[illegible]; State, firkins, light colored, 28@30c; State, half-firkin tubs, yellow, 30@35c; State, half-firkin tubs, light colored, 27@28c; State, Welsh tubs, 28@30c; Western, firkins, yellow, 22@25c; Western, ordinary, 15@18c.

Fruit—The supply of choice green apples is very limited and the demand is good at from $7 50 to $8 50 ₩ bbl, from store. Single barrels of choice selected sold as high as $10 @$11 50 ₩ bbl.

Dried Apples—Market well supplied and dull at 7@9c ₩ lb.

Dried Peaches—There is a large stock of all descriptions for sale, and prices are nominal, ranging from 12 to 18c ₩ lb.

The New York Fruit market, Foreign and Domestic, is reported by the *Commercial List*, of this date, as follows: "The market remains in the same quiet position, but prices are without quotable change. The sales are 3,000 boxes layer raisins, in lots, at $3 70 and $2 70 in gold; 200 qr. do. 90c; 100 bbls currants, 11½c; 18 casks Turkish prunes, 20½c; 50 kegs French plums, 16c; 20 bbls pecan nuts, 22c; 50 bags filberts, 10½c; 125 bags African pea nuts, $4 00; 200 boxes, 250 half do., and 250 quarter do. layer raisins, 700 boxes loose Muscatel, 250 bbls currants, 45 bales Spanish paper shell almonds, 100 do. Grenoble walnuts, 100 bags Brazil nuts, 500 do. African pea nuts, 75 cases half boxes and 50 do. quarter do. sardines, and 100 do. Canton ginger, on private terms. In West India, we notice sales of 80,000 Bahama red pine apples at $10@14 and 9000 Carthagena cocoa nuts (which are $5 higher), on terms we did not learn. Messina Oranges $4 50, Palermo Mountain $5 50, Sorrento $4, sound Lemons $4 50, as they run $2@3. Domestic Dried Fruits are very quiet: Southern Apples [illegible]@7c; Western and State 9@10½c; Peeled Peaches 30@35c. By auction, 800 bxs Messina Oranges sold at $4 10@5 70; 3,000 do Palermo Mountain do. $3 25@4 10, 2,000 do Lemons, $1 50@2 75; 2,000 damaged, $1@2 20; and 100 bbls new crop Trieste Currants, damaged, 9½@10½c, cash. Canned Fruit is steady but quiet at our quotations. We quote Dudley's Peaches, 2-lb, $4 dozen, $2 75; Cherries, 2-lb $3 50; Brandy do., quarts, glass, $6 25; Cherries, 2-lb cans, $4 50; Pine Apple, $4 50; Strawberries, $4 50; Blackberries, $3; Whortleberries, $2 75; Bartlett Pears, $3 75; Green Peas, $2 75, Green Corn, $3; Tomatoes, 2 and 3-lb, $2@3; Lima Beans, 2-lb $3 75; Lobsters, 1 and 2 lb, $1 75@3; Oysters, spiced 1 and 2-lb, $2@3; do Fresh Cove, $1 75@2 75; Pickles, Bottled, quarts and gallons, $3 25@$7 50; and do ½ bbl $12."

Cheese—We quote prime new W. R. Cheese selling, from store at 16c, and Goshen at 20c ₩ lb.

Eggs—The receipts have been more liberal, but still there is an active demand at 19c ₩ dozen.

Flour—We have not noted the condition of the market above. We quote choice spring brands at $14 50 @14 75 ₩ bbl. The Philadelphia market is quoted by the *Commercial List* of to-day, as follows:

"The flour market during the past week has been almost at a stand, and prices may be quoted fully 50 cents ₩ barrel lower. Nothwithstanding this concession, buyers refuse to purchase beyond present necessity, as they have no confidence in the stability of the present high range of prices. Consumption is circumscribed within unusually narrow limits, for the reason that the article, at present value, is beyond the reach of many of the poorer classes, hence the trade operates with caution. The stock here is represented as being unusually small, and there is no prospect of receiving any considerable accession for at least several months, 1,200 bbls. North West Extra Family were taken for shipment at $12 00 @14 00 ₩ bbl. Sales of 6,000 bbls, chiefly North West Family at $12 75@17 25, including Penn'a and Ohio do. do., at $14 00@16 00; California at $16 00@16 50; fancy St. Louis at $17 00@17 50; Extra at $10 50 @11 25; and Superfine at $9 50@10 00."

Grain—There is but little, if anything, doing in wheat, and prices are nominal. The last sale reported was on Friday, of 2 cars No. 1 spring, in elevator, at $3 40 ₩ bushel. The New York market is reported by the *Commercial List* of this date, as follows: "The wheat market has presented a more than usually quiet aspect during the period under review. The stock in store is reduced to a little more than 70,000 bushels, yet, with an extremely limited demand, the market for [illegible] ties is nominally lower. Prime samples, particularly of winter, are very scarce and firmly held. There has been an entire absence of receipts from any source, and the withdrawals from warehouse have been small. Sales 5,000 bushels Chicago spring at $2 75, 7,200 do No. 2 Milwaukee, $2 62½; 16,000 do. No. 2 and 3 mixed spring (on Wednesday), $2 63; 1,000 do prime white California, $3 40; and 400 do Amber Michigan, $3 50. The market for rye is depressed, though prices are not essentially lower. Sales 8,200 bushels western, in lots, at $1 72@1 75, and 3,500 do Canada, duty paid, $1 80."

Corn—The market is inactive, but holders are not disposed to give way in prices in order to effect sales, and are generally holding at from $1 02@1 08 ₩ bush. In New York the supply of corn has been very much reduced, a fact that has given holders the advantage throughout, an advance of 12@[illegible] having been established since Wednesday last. The business was, however, quite moderate, the sales aggregating but 150,000 bus, closing on Friday evening at $1 25@1 30 for new Western mixed, the latter an outside price for a small parcel, and $1 25 for white Southern.

Rye—Market active at good rates. The receipts light. The quotations are $1 70@1 72 ₩ bus.

Oats—There is an active request for oats. Small sales from first hands were made at 70c.

Hay—Prices have advanced considerably of late. We note sales on the wharf of 2 tons baled at $25 ₩ ton.

Provisions—There is a moderate trade doing in Bacon, Lard, &c. We note packer's prices as follows: Shoulders, 9½@9¾c; sides, 11½c; clear sides, 12½c; hams (plain), 14c; hams (S. C.), 15@15½c; hams (canvassed), 16@16½c; dried beef, 22c; lard, 13½c; mess pork, $23 00@23 50 ₩ bbl. We note a sale of 10,000 lbs, country sides, at 11c ₩ lb.

Potatoes—The demand is good. The last reported sale of B. B. Potatoes was made on Friday, of 1 car, to arrive, at $1 20 ₩ bushel.

Baltimore Coffee Market.

During the past week the transactions in Coffee have been limited, says the *Commercial*, but the market, although quiet, has throughout been very firm in tone, and it closes strong. Sales include 500 bags Rio ex "Grey Eagle," and 1,600 bags do ex "Leopoldine" on private terms, but said to be at 16½c, gold duty paid, and 400 to 500 bags, in lots, at 18½@18¾c, gold in bond. To-day we note sales of 1,000 bags Rio ex "Adelaide" at 16½c gold in bond, and of 700 bags do ex "Ellen" on private terms. We quote to-day as follows: viz: Rio at 16½@18c for fair to good; 18½@19c for prime to choice; Laguayra at 18@18½c, and Java at 24½@25½c, gold duty paid.

New York Finance and Trade.

Gold Closed at 137¼.

New York, May 25—P. M.

THE MONEY MARKET.

Money is more active and there is considerable shifting of loans. The large and increasing balance in the sub-Treasury, and the bank statement, create some uneasiness among holders. Call loans 5@6 per cent. The bank statement will show a decrease of two millions in loans, a million and a half in specie, $7,800,000 in deposits, and $3,200,000 in legal tenders.

STERLING

Closed nominal at 109⅞ for first class bills.

GOLD

Lower: it opened at 137½; declined to 137, and closed at 137 bid, and 137⅛ asked. The export to-day was $338,211.

GOVERNMENTS

Were in moderate request in the forenoon, but closed dull. Coupons '81, 111⅜@111⅝; do '62, 109⅝@109¾; registered do, 106¼@106½; coupons '64, 105¼@106; do '65, 106¼@106⅜; do new, 108@108⅛; 10-40s, 99½@99¾; August 7-30s, 106⅛@106¼; June 7-30s, 105⅝@105¾.

THE RAILWAY MARKET

Opened lower, but improved before noon. The rise was most marked on Erie and Northwestern. The market again relapsed on reports as to the bank statement, and closed about steady.

CLOSING PRICES

5:30 P. M.: Gold, 137⅛; Ohio Certificates, 25¼; Canton, 42½@42¾; Cumberland, Coal 30½@31; Quicksilver, 23½@25; Mariposa, 6½@7; do preferred, 18½; Western Union Telegraph, 42⅞@42¾; Pacific Mail, 127@128; Atlantic, 100⅝; New York Central, 97⅛@97⅜; Erie, 58⅜@58½; Hudson 100½@101½; Reading, 102@102¼; Michigan Central, 109⅝@110; Michigan Southern, 66¾@66⅝; Illinois Central, 110[illegible]; Pittsburgh, 73¼@73⅜; Toledo, 112⅜@[illegible]; Rock Island, 87⅞@87¾; Northwestern, 31⅞@32; do preferred, 57½@57¾; Fort Wayne [illegible].

BORDER STATE BONDS

Higher and in more demand; new Tennessee 63@63½; old Virginias 66@67; new North Carolina 47½@47¾; Missouris 97½@97¾.

MISCELLANEOUS.

Steamship shares lower. Coal stocks quiet. Miscellaneous list dull and lower.

MINING SHARES

Generally quiet. Quartz Hill was the feature and opened at $1 90, fell to $1 70, and closed at $1 80@1 85. Gregory dull at $2 75@3 70. Corydon firm at $2 15.

Receipts at the Sub-Treasury $4,529,441; payments $5,036,355; balance $132,281,229. The receipts include for customs $261,000, and gold notes $150,000.

METAL MARKETS.

NEW YORK.

The transactions in pig iron have been small, says the *Iron Age*, buyers and sellers evincing a considerable difference of opinion both as regards domestic and foreign brands. Bars continue dull. We quote as follows:

Ingot Copper—In light demand at 24c. The supply from the lakes is now arriving, but has no effect on prices.

Pig Iron—American is firmly held at $42@45 cash, for No. 1 extra; $40 for No. 2 extra, and $38 for No. 2. Scotch sells readily from ship at $41@45, according to brand.

Bar Iron—Demand light, at $100@105, less 5 per cent for refined; common $10 less. Mill prices $90@95 for best; $85@85 for common.

Scrap Iron—Quiet at $50 for No. 1.

Old Rails—$46@48; dull.

Blooms—Demand light, at $85@85.

Spelter—Quiet at 9@9¼c currency. Stocks light.

Tin has advanced to 23c, gold, for Straits.

Lead—Firm, at $6 65@6 75, gold, for whole lots. Store lots, 9½@9¾c currency.

PHILADELPHIA.

In Pig metal there is very little doing, says the *American* of Saturday last, but prices have advanced. We quote No. 1 Anthracite at $43@44 ₩ ton; No. 2 at $40, and No. 2 hard at $38 ₩ ton. Scotch Pig is quoted at $42@43. Manufactured Iron is firmly held, but the demand is limited.

ST. LOUIS.

Iron and Nails continue in fair demand, says the *Democrat* of Friday. We quote St. Louis rates: 10d nails at $6 75 to 7 00, ₩ keg; common bar iron at 5½c ₩ lb; small sizes, assorted, 6½ to 7½c ₩ lb; hoop iron 6½ to 11c ₩ lb; hollow ware 5c ₩ lb; pig iron, No. 1 Missouri hot blast, $55 ₩ ton; do, cold, $65; Tennessee, hot and cold, $50 to 55 ₩ ton.

BALTIMORE.

The *Commercial*, of Saturday, says there were sales of some 500 tons Anthracite Pig, mostly No. 3, at $38@40; quote No. 2, $42; and No. 1, $44. Baltimore Forge Charcoal is steady at $49@50, and Scotch from the yard, at $44 ₩ ton.

The Wheat "Corner."

The Chicago *Tribune* regards the stories afloat of shipments of wheat from California to France and back to New York and thence to the cities of the Northwest as much exaggerated. Some California flour, consisting of a few sacks, were brought to Chicago as a curiosity, and not, says the *Tribune*, because of any deficiency in the supply of that market. The present high prices are only regarded as temporary and liable to tumble at any moment. They are the result of the combination of speculators upon exaggerated statements of the scarcity of breadstuffs. The "corner" upon breadstuffs has been successfully maintained much longer than the speculators expected; but its time is nearly spent. Millers buy no wheat at present prices, and sales of flour are confined to retail dealers, to supply the immediate wants of customers. Transactions in wheat and flour, however, as they may be reported, are merely bettings upon the time that the "corner" can be sustained. The fall is inevitable and cannot be far distant. "If there be a farmer, or miller, or any other person," says the paper above referred to, "holding any wheat or flour for a further rise, such person will have his eyes opened very speedily. On Thursday there were 110,000 bushels of wheat and 67,000 barrels of flour in store in Chicago. The daily receipts are fully equal to the demand for local consumption, and there is no other demand now, and will be none until the new crop comes in. Speculators are ready to sell out, and their victims will be just that class of men who believe that the mills of Rochester and Oswego are running on wheat imported from Europe, and that Chicago is sending to California for flour. This is so well understood here that it is surprising that any person beyond the city continues to hold either wheat or flour with the expectation of an additional rise."

Weekly Review of the Wholesale Market.

New York, May 25.—Breadstuffs have been dull and variable. The demand for low grade flour is partly speculative. Common brands of shipping flour are scarce. Family brands are 75c@$1 lower. The trade purchased with great caution.

Wheat is pressingly offered and spring declined 30c. Winter nominal.

Corn has fluctuated. Old varied 5@6c. But little was offered at the close, and prices were nominal. New advanced 6@8c under the demand for export, the market closing unsettled, and holders have withdrawn from the market in consequence of the break in the Erie canal at Palmyra.

Oats closed heavy at the improvement. The demand has been mostly speculative.

Rye steady and demand moderate.

Pork has fluctuated with a fair request, closing quiet. The stock has slightly diminished.

Beef was more active. The demand was partly for export, and firm.

Cut meats and bacon sold freely at full prices.

Lard was in fair demand, partly for export, and improved, closing steady.

Whisky improved and sold freely. There is a large business in contraband at $1 25@1 30.

Sugar is active at ¼c advance.

Cincinnati Market.

Cincinnati, May 25.—Flour dull but prices unchanged; family, $14 00@14 50. Wheat dull and nothing done; holders ask full prices; No. 1 winter, $3 25. Corn closed dull at 90c for No. 1 in bulk; no demand for it sacked. Oats firm at 74@75c for No. 1, the latter rate in elevators. Rye and barley steady. Cotton 25c, dull, with little demand; sales of middlings at 25c; spinners are the only buyers, and their wants are of a most limited nature. Whisky unsettled; holders at $2 32; no buyers at even 30c; new orders prohibiting the transportation from place to place in bond have settled the market, and it is believed that this, with the introduction of meters into distilleries, will increase the cost of the article largely. Provisions unchanged. Mess pork $22 50. Bulk meats 8@10c. Bacon 9@11c. Lard 12½@12¾c; the demand for all is very light. Butter dull at 15@20c. Cheese—12 @14c for new. Linseed oil $1 40@1 50. Exchange steady at par buying. Money market close. Gold 135 buying, 137 selling. Receipts—flour, 1,300 bbls; cotton, 118 bales; corn, 18,000 bushels; hogs, 630; wheat, 1,759 bushels. Our River Correspondence.

Cincinnati, May 24, 1867.

To the Editor of the Pittsburgh Commercial:

Dear Sir:—The steamer Belle Vernon arrived here this morning and will leave for Pittsburgh this evening. Will arrive Monday evening. All well, Truly yours, T.

The River and Matters Along the Wharf.—The weather—we have certainly had sufficient rain to answer all purposes. Both rivers are again rising. The Monongahela marks indicate ten feet six; the Allegheny eleven feet six. From the amount of rain that has fallen a further rise may be expected. A number of coal boats have taken their departure. The packet Belle left on Saturday with an excellent trip and a good number of passengers. The packet Maggie Hays is receiving for St. Louis and will be the first boat for that port; persons going that way will bear this in mind. The far-famed packet Kenton is fast filling up for Memphis and New Orleans. The Grey Eagle left on Saturday with a big trip. The steamer Glendale left on Saturday for St. Louis; she was compelled to refuse freight. The Bayard—a fine side-wheel steamer, in charge of Capt. Moore—leaves to-day for Parkersburg. The Matamoras packet Ingomar leaves to-day for that port, in charge of Captain Thompson. The Allegheny river is in fine navigable order to the head-waters. The Argosy will be due to-night. The R. C. Gray left for St. Louis with a full cargo of railroad iron. The following tow-boats have arrived—Collier, Lion and Resolute. The tow-boat Wildcat departed for Cincinnati with 7 barges containing about 70,000 bushels of coal.

The towboat Alps arrived at Memphis Tuesday with 180,000 bushels of coal from this port.

The Cora S., Sam J. Hale, and W. A. Caldwell were to have left Memphis for the Ohio Wednesday.

The steamers Arago and Belle Vernon, left Cincinnati for this point on Friday.

The steamer Richmond passed Memphis on Thursday evening on her up trip.

The Kate Robinson arrived at St. Louis on Friday. She would have dispatch for a return trip.

The Hercules failed to get off. She leaves this morning. Others are making ready.

The Wild Duck and barges passed Cairo on her way to St. Louis, on Friday.

The Richmond arrived at Cairo on Friday night. She left New Orleans on Monday. She had no freight but was full of passengers, making very slow time.

Additional Towboat Arrivals.—Coal City, Coal Hill, Coal Valley, N. J. Bigley, Grand Lake, Leopard, Greyhound.

Captain Bagaley intends running a packet between St. Louis and the head waters of Red River. He will have the boat out in a day or two.

Cincinnati.—The Argosy brought 200 tons, and was full of people from Pittsburgh. She reshipped thirty tons for points below.

The contract for carrying the United States mail between Memphis and White river, has been awarded to Captain John B. Davis.

A Norfolk steamboat captain has been arrested for ejecting a colored "lady" from a cabin allotted to white "women." The world moves.

Captain Dan. Kinney, of the ill-fated David White, has recovered, and will soon have another aboat.

The towboat Simpson Horner performed the difficult feat of ascending the falls Thursday. She came up through the Indain chute.

The Cumberland, at Nashville, Thursday morning, was still falling, with only three feet water on the shoals, and the Leonora No. 2 lightering over.

The Julia No. 2, arrived at Cincinnati on Friday, with 300 tons freight. She discharges 175 tons here, and reships 100 plows for New Orleans, and will fill out and leave for Nashville.

The splendid side wheel steamer Bayard, Capt. Geo. D. Moore, leaves at noon for Parkersburg and intermediate points. This boat has superior accommodations and attentive officers.

The punctual steamer Ingomar will hereafter be commanded by Captain S. Thompson, an officer who comes highly recommended. She leaves at 11 A. M. for that port. Persons going that way will receive the best of attention.

St. Louis.—The contract for transporting United States supplies between this port and New Orleans, has been awarded to Captain Lloyd T. Belt, of the Lacy Gay, backed by the A. & M. S. S. Company. The contract goes into operation June 1st.

Coal Lost.—The towboat Eagle, on her trip to Louisville from Pittsburgh, with nine barges of coal in tow, sunk one at Vevay. She ran foul of the boat. The other boats were brought through safe, and she has returned to Pittsburgh.

Glad of it.—Our old friend Capt. S. Hemphill has taken charge of the office of the steamer Kenton. The Captain is one of the most accomplished officers that comes to this port. We are pleased to see him in the office of so fine a packet. Capt. Dunlap is one of those persons that understands his business.

The fine passenger steamer Maggie Hays, Captain D. L. Hendrickson, is receiving for Cairo and St. Louis, and will leave on Wednesday. This boat is one of the best of her class afloat, and is a great favorite with passengers and shippers. Call early and secure a passage.

Jeffersonville, Ind., May 24—7 P. M.—Eds. Com.—The river has commenced falling, with four feet six inches in the pass over the falls. Cloudy; wind southeast; mercury at 62 deg. The towboat Sam Roberts came down from Pittsburgh with a heavy tow of coal, and returned with empty barges. D. M. Dryden, Falls Pilot.

Chattanooga, 21st.—There were three steamers at the levee yesterday—the Resaca, Cherokee and Mary Byrd. Business at the levee was correspondingly brisk. Large amounts of corn were awaiting removal to the warehouses to which it was assigned. After one or two more trips these boats will lay up, as the season is about over.—*Union.*

The Arkansas is low, with but three feet to the mouth and thirty inches to Fort Smith, if the Little Rock papers of Friday speak knowingly. White river is falling fast. The decline here continues unabated, and amounts to twenty-six inches in the past forty-eight hours. The river is now about nine feet below high water mark of this spring.—*Appeal.*

Passengers and shippers would do well to bear in mind that the punctual packet Kenton, Capt. J. H. Dunlap, has the principal portion of her cargo on board for New Orleans, and will have dispatch. This boat goes through without reshipping. Capt. Dunlap is a very popular officer and has many friends, and does credit to their friendship. Our old friend Captain Sharp Hemphill will be found in the office.

St. Joseph.—The Silver Lake and Ida Fulton left for the mountains. The Nora leaves on a like voyage to-morrow morning. The Kate Kinney passed up to Omaha last night. The following named mountain boats passed Yankton, Dakota, at the dates given: Nile, May 5th; Big Horn, May 8th; Benton, May 8th; Gallatin, May 8th; Ida Stockdale, May 10th; Abeona, May 10th. The river is rising here.

A Delightful Place.—Point Pleasant, a few miles below New Madrid, must be an exceedingly pleasant place to live in. On Saturday last, we learn from a passenger on the Belle Memphis, three men were killed, one of whom had cut another's head off with an axe a few days previous. When the Belle passed, a party with guns, etc., were out on the hunt of the parties who did the last killing and had expressed the determination of putting out their lights on sight. If Memphis don't bestir herself Point Pleasant will wear the horns.

Selma, May 21.—This section of the country has been visited by one of the most delightful seasons during the present month which it has ever been the good fortune of the planter to enjoy. After two weeks of uninterrupted sunshine, on Sunday afternoon and Monday morning refreshing showers were poured down upon the newly ploughed fields, and the earth seems to rejoice with the prospect of abundant fruitfulness. The crops are in a fine condition, the gardens are affording an ample supply of vegetables, the wheat harvest is ripening, and all things give promise of returning plenty.
